Montana Ghost Wood is the perfect choice for the eco-conscious user. In an effort to preserve our forests, Montana Ghost Wood is created from SFI and FSC certified timber and logged from forests where beetles and forest fires have decimated the Montana landscape. In this respect, our product has truly been “Reclaimed From Mother Nature”.

Montana Ghost Wood redefines reclaimed wood for virtually half the price. We create colors and textures inspired from the rustic wood barns, siding, and flooring found in historic ghost towns and scenic Montana.
