

# Sunjoy Gold

## Pillar® *Barberry* *Berberis thunbergii*

Sunjoy Gold Pillar® *Berberis thunbergii* 'Maria' USPP 18,082

USDA Zones 4-7

Mature Sizes- 36-48 inches H and 18-24 inches W

This is an easy way to add both vertical lines and bright color to your home landscape. Sunjoy Gold Barberry produces orange-red new growth that matures to vivid gold. Autumn brings stunning orange-red color. Proven to be burn resistant in side by side tests with other yellow leaf barberry. Plant Sunjoy Gold Pillar barberry as a low-maintenance hedge or edging, or add it to a border as a specimen plant.

### **Top reasons to grow Sunjoy Gold Pillar barberry:**

- Versatile, appealing shape adds drama and flair
- Bright gold color doesn't burn in the sun
- Very deer resistant

Plant Type: Shrub

Shrub Type: Deciduous

Spacing: 24 - 36 Inches

Foliage Colors: Yellow

Habit: Upright

Container Role: Thriller

Light Requirement: Sun

Maintenance Category: Easy

Water Category: Average

Needs Good Drainage

Uses: Shrub borders, groupings, masses, perennial borders and containers

Maintenance Notes:

Extremely adaptable, but prefers well-drained soil. This upright columnar selection does not require any pruning, but may be shaped in summer. Deciduous. Fertilize in early spring by applying a slow release fertilizer specialized for trees & shrubs. Follow the label for the recommended rate of application.
