FAQ: F25 and F25 ACE

Q: What are the key features of F25?

A:

- **Suction Power:** 20,000 Pa – Delivers strong suction for thorough cleaning on various surfaces.
- **Height when Flat**: 4.92 in / 12.5 cm – The vacuum can be laid flat to clean under furniture and appliances, ensuring deeper cleaning in hard-to-reach space.
- **Self-washing and drying temperature**: 90°C.
- **Dual Scrapers**: Constant-pressure floating scraper + Anti-entangling comb scraper – The dual scraper is designed for picking up hair and preventing it from tangling in the roller.
- **Roller System:** Single + Edge Cleaning (both sides 1 mm).
- **Dirt Detection:** Yes – The DirTect module detects the level of dust during cleaning and adjusts the mode. It also determines the optimal self-cleaning intensity after you place the cleaner on the charging dock.
- **Water Tank Volume:** The clean water tank holds 870 ml and the dirty water tank 720 ml.
- **Run Time:** 40 minutes (Auto Mode) – Offers a long run time to clean large areas without interruptions.
- **Drying Time:** 5/20 minutes – Offers 5-minute fast drying mode and 20-minute quiet drying mode. They deliver the same drying efficiency, with the only difference in noise level and drying duration.

Q: What are the key features of F25 ACE?

A:

- **Suction Power**: 20,000 Pa – Delivers strong suction for thorough cleaning on various surfaces.
- **Height when Flat**: 4.92 in / 12.5 cm – The vacuum can be laid flat to clean under furniture and appliances, ensuring deeper cleaning in hard-to-reach space.
- **Self-washing and drying temperature:** 90°C.

- **Dual Scrapers:** Constant-pressure floating scraper + Anti-entangling comb scraper – The dual scraper is designed for picking up hair and preventing it from tangling in the roller.
- **Roller System**: Single + Edge Cleaning (both sides 1 mm).
- **Dirt Detection**: Yes – The DirTect module detects the level of dust during cleaning and adjusts the mode. It also determines the optimal self-cleaning intensity after you place the cleaner on the charging dock.
- **App Control:** Yes – Allows remote control and customized cleaning via the app for enhanced convenience. Auto Detergent Dispenser: Yes – Enjoy up to 30 days of cleaning with a single detergent refill, as the auto dispenser precisely releases detergent as needed.
- **Water Tank Volume:** The clean water tank holds 740 ml, the dispenser 100ml, and the dirty water tank 720 ml.
- **Run Time:** 40 minutes (Auto Mode) – Offers a long run time to clean large areas without interruptions.
- **Drying Time:** 5/20 minutes – Offers 5-minute fast drying mode and 20-minute quiet drying mode. They deliver the same drying efficiency, with the only difference in noise level and drying duration.
- **Adaptive drive wheels:** Yes – Features adaptive drive wheels for smooth movement and easy maneuvering during operation.

Q: What is Intelligent Dirt Detection, and which models feature this technology?

A: Intelligent Dirt Detection is a feature that enhances cleaning efficiency by detecting the level of dirt in the water during cleaning. Using an infrared emitter and receiver around the dirty water pathway, the system learns how dirty the water is.

Additionally, F25 and F25 ACE incorporate proactive self-washing with the DirTect module, which detects the water cleanliness while cleaning. This allows the system to determine the optimal self-cleaning intensity, ensuring smart and efficient self-cleaning performance. **This feature is available on F25 and F25 ACE.**

Q: What are the differences among the cleaning modes?

A:

- **Eco Mode**: Low suction and water flow, energy-saving for lighter cleaning tasks.
- **Auto Mode:** Automatically adjusts suction power and water flow.
- **Max Mode**: Provides maximum suction power for deep cleaning.
- **Sponge Mode:** Higher suction than Auto mode with minimal water release, ideal for wet areas like bathroom floors after a shower.
