

Concrete Construction Accessories

Plastic OSHA Caps

CAMP

Twister Tool
twists the bar ties around rebar to hold it in place

Bar Ties
secure rebar to rod chairs, rebar chairs and other intersecting pieces of rebar

Tie Wire Reel
attaches easily to tool belt holds any distance of tie wire

Rebar Wire
secure rebar to rod chairs, rebar chairs and other intersecting pieces of rebar

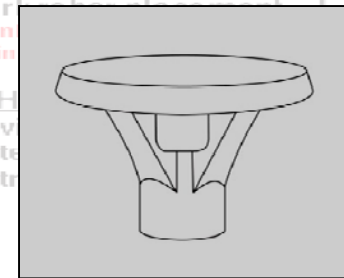

Rebar Chairs
hold rebar above the ground until the concrete is poured; holds rebar sizes # 3, #4, #5

Mushroom Caps
offer high visibility to mark rebar locations. Warn against rebar protrusion

OSHA approved
provide protection

- Fits on #3 thru #7 rebar
- Used on vertical rebar to prevent impalement after rebar has been placed and prior to concrete being poured. They are reusable. OSHA Caps are OSHA approved

Concrete Accessories Master Pack Program

Header Cards
