

Hello, MY NAME IS:

Thanks
FOR BRINGING
ME **home!**

SPRUCE ME UP! I've been in a dark box traveling. Here are **quick tips** to get me settled:

- **Remove** yellow leaves or broken stems.
- If my soil is dry, give me a **drink of water**.
- Set me in the **right light**.

WATCH ME GROW! Keep this card for your records.

HERE'S HOW TO TAKE CARE OF ME

Peace Lily

LIGHT

I grow best in a bright, sunny spot. I prefer at least six hours of indirect sun a day. I can grow in lower light conditions, but won't bloom much.

WATER

Water me when the top couple inches into the soil are dry, allow water to drain thoroughly; remove any excess water. Too much water can make the roots drown and die.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have graceful, green foliage with white blooms that can purify the air and I am super easy to grow.

GROWING TIPS

The plant will wilt dramatically when it gets too dry, but happily, its leaves pop back quickly after it gets water. If the leaf edges turn brown, supply more humidity.

GIVE ME FRIENDS

(I play well with)

Money Tree, Elephant's Ear, or Zebra Plants
