

## Post Cap Care and Maintenance & Installation Instructions

**Step 1:** With all of our wood post caps, we recommend that you seal/paint them with a high-quality exterior finish to preserve the wood's natural beauty and to ensure a lifetime of enjoyment. Apply to the entire post cap including the underside of the cap, before installation.

**Step 2:** To attach the post cap to the post, using an exterior-grade construction adhesive (Ex: Liquid Nails) to the underside of the post cap and firmly place the post cap on top of the post. See figure at the right.

## Post Base Trim Care and Maintenance & Installation Instructions

**Step 1:** With all of our wood post base trim, we recommend that you seal/paint them with a high-quality exterior finish to preserve the wood's natural beauty and to ensure a lifetime of enjoyment. Apply to the entire post base trim including the inside of the trim, before installation.

**Step 2:** To attach the post base trim around the post, using an exterior-grade construction adhesive (Ex: Liquid Nails) to the inside of the post base trim and place the trim firmly around the post. Another option is, to attach the post base trim to the post using finish nails.
