Features:

- UltraWash® uses 2 pressurized spray nozzles to blast off stuck-on foods so you don't have to soak, scrub or scrape. Dishes are cleaned with filtered, clean water throughout each cycle.
- The 3-stage UltraWash® filter removes debris so dishes come out clean.
- The SmartWash® cycle takes the guesswork out of doing dishes. Sensor technology detects the amount of soil in the water and adjusts water temperature, water pressure and cycle time to deliver the best cleaning results for each unique load.
- The SmartDry™ Plus Drying System uses hot water and larger condensation channels to move moisture down the drain so dishes get a more complete dry.
- Extra large capacity handles 14 place settings.
- Use the UL-certified Sani Rinse option to eliminate 99.999% of bacteria from your dishes and glassware.
- Half Load option can be used for smaller loads in only the upper or lower rack for maximum efficiency.
- Delay the start of the cycle for 1 hour or up to 24 hours, making it easy to add items to the load or to run the dishwasher during off-peak hours.
- Extra Dry option extends drying time to dry everything, even plastics.
- Express Wash cycle cleans a full load of dishes in 50 minutes.
- The stainless steel interior tub not only looks good, it's also durable, resists stains, and retains heat to help improve drying performance.
- Lower, lift or remove the MoreSpace™ Adjustable Upper Rack with ease, while empty, to accommodate large and oddly shaped items. 2 different levels give you flexibility to create the space you need.
- With a 51 dBA* sound level, this dishwasher will fade into the background so you can sing along to your favorite song without interruption.
- Time Remaining Display gives at-a-glance information.
- Smooth, light touch controls are easy to use.
- Stainless steel features a special coating that stands up to a busy household so you get all of the beauty and durability of stainless steel plus a fingerprint-resistant finish that cleans easily with a damp cloth.
- Flush pocket handle brings an elevated style to any kitchen.
- ENERGY STAR® Certified to save water, energy and money.
- With Automatic Leak Detection the dishwasher senses and drains excess water and detects leaks in the base of the dishwasher, shuts down operation and automatically pumps out water before reaching the floor.

*Per IEC Standards.
