

CENTRAL AIR CONDITIONER COVER – SQUARE

Fits most square residential units.

Protects air conditioner from damage caused by freezing water and debris.

Easy to Use:

1. Be sure unit is clean and dry.
2. Place cover over compressor unit and pull down as far as possible.
3. Wrap elastic straps around compressor unit.
4. Fasten hook on elastic strap into ring to complete installation.

WARNING: Damage to air conditioner system may occur if unit is operated while cover is on compressor unit. Remove cover before operating system.
