Model
AN610H

POWER

Makita

Competitors

Innovative high pressure technology enables nailer to operate at 320 PSI for more consistent flush nailing

PERFORMANCE

"Tool-less" depth adjustment engineered for more precise flush and countersink nailing

EFFICIENCY

Two-mode selector switch allows operator to select sequential or contact driving options

VERSATILITY

Multi-directional exhaust port directs exhaust air away from operator

MORE PRECISE.

2-1/2" HIGH PRESSURE SIDING NAILER

Model AN610H

FEATURES & BENEFITS

- Innovative high pressure technology enables nailer to operate at 320 PSI for more consistent flush nailing
- Superior power-to-weight ratio: up to 30% less weight and up to 30% smaller than conventional siding nailers
- "Tool-less" depth adjustment engineered for more precise flush and countersink nailing
- Two-mode selector switch allows operator to select sequential or contact driving options
- Multi-directional exhaust port directs exhaust air away from operator
- High capacity canister system holds up to 400 nails for high production applications
- Drives standard plastic and wire collated nails for more versatility
- Easy-load nail canister with nail size adjustment base for increased productivity
- Tool hook allows nailer to remain close-by
- Rubberized handle for better fit and added comfort
- See-through nail canister indicates when tool needs reloading
- No-mar tip engineered to prevent damage to material
- Large rubberized bumpers for added durability
- Includes high pressure fitting

STANDARD EQUIPMENT

- No-mar Tip (421574-2)
- Safety Goggles (192517-8)
- Oil Supply (194381-3)
- Tool Case (824490-1)

SPECIFICATIONS

Operating air pressure	140 - 320 PSI
Nail size	1-1/4" to 2-1/2" .099 - .113 shank diameter plastic and wire collated
