

BATTERY INSTALLATION/REPLACEMENT

1. Slide the battery cover off in the direction of the arrow, and pull out the battery connection terminals.

2. Install/replace two fresh, non-rechargeable nine-volt (9V) batteries.

3. Put the batteries back into the adapter, and replace the battery cover.

4. The battery installation/replacement is complete.

NOTE:

1. Do not mix new and old batteries together.
2. Verify that the batteries are connected securely to the connection terminals
3. Do not mix alkaline, carbon-zinc, nickel-cadmium, lithium-ion, or other battery types.
4. Do not use rechargeable batteries.

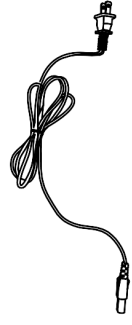

POWER CABLE INSTALLATION

Extension cord

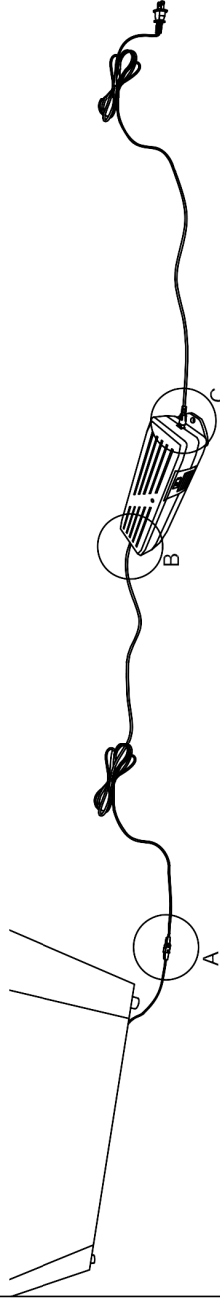

AC Adapter

Power cable

Power Cable Installation
