

Use and Care Manual

Wood Cupola with Weathervane

Your expertly crafted Good Directions Wood Cupola is designed and manufactured to be low maintenance.

- ❖ Built in the USA using classic cypress & BC pine plywood.
- ❖ Complete, easy step-by-step instructions are included. You can also view our cupola installation video.
- ❖ Our cupola combinations come with a matching weathervane, taking the guess work out of it by combining the perfect size weathervane and cupola for you.
- ❖ Polished copper roofs will patina naturally over time.
- ❖ Wooden roofs should be shingled or covered with metal prior to installation.
- ❖ Wood cupolas should be primed and painted to protect the wood from the elements.

Care & Maintenance:

- ❖ Wood cupolas should be repainted periodically to ensure the wood continued to be protected from the elements.
