

FAQ:

Q1: What devices can Explorer 290 power?

A: Please note that the AC output port can only charge/power devices that operate at less than total 200 Watt.

Q2: Can the Explorer 290 be charged while using?

A: Yes, Explorer 290 supports pass-through charging. But we don't suggest, it will cause damage to battery life.

Q3: How to know the working times for my device? Why does the duration of some devices deviate from the actual usage data?

A: Working time = $290\text{Wh} \times 0.85 / \text{operating wattage of your device}$. The duration of our equipment is based on laboratory data, and the duration of specific equipment usage may vary.

Q4: Does Explorer 290 include a built-in MPPT controller?

A: All Jackery power stations have a built-in MPPT controller.
