DIRECTIONS FOR USE

INSTRUCCIONES DE USO

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Se considera una violación a la ley federal usar este producto con otros fines que los indicados en la etiqueta.

Scotts® QUICK START GUIDE: You're Just Three Simple Steps Away From A Beautiful Scotts® Lawn!

Guía de inicio rápido de Scotts®: ¡Está a sólo tres sencillos pasos de tener un hermoso césped con Scotts®!

FILL & SET SPREADER

Llene y ajuste el esparcidor

Scotts® Broadcast / Rotary Spreaders **4 1/4**

Scotts® Drop Spreaders **7 1/4**

This package applies 4.45 pounds of product per 1000 sq ft. Con este paquete se aplican 4.45 libras de producto por cada 930 m².

APPLY

Aplique

For even application walk at a steady pace slightly overlapping each pass. Scotts® Drop Spreaders: Align hopper arrow with previous wheel track. Scotts® Broadcast/Rotary Spreaders: Line up each pass approximately 5 ft from wheel track.

- Apply when grass and weeds are actively growing.
- Apply only when grass is dry.
- This product must be WATERED IN IMMEDIATELY after application.

Para una aplicación uniforme, camine a un paso constante, superponiendo ligeramente cada pasada. Esparcidores por goteo Scotts®: Alinee la flecha de la tolva con la huella de la rueda proveniente de la pasada. Esparcidores por broadcasting Scotts®: Alinee cada pasada a aproximadamente 5 ft de la huella de la rueda proveniente de la pasada.

- Aplique cuando el césped y las malezas estén creciendo de manera activa.
- Aplique cuando el césped esté seco (transpirante).
- Este producto debe REGARARSE INMEDIATAMENTE después de su aplicación.

CLEAN-UP

Limpie

Sweep product from hard surfaces onto the lawn.

Barra el producto derramado sobre superficies duras hacia el césped.

YOU'RE DONE! WHAT'S NEXT?

¡Listo! ¿Y ahora qué sigue?

Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry.

No deje que las personas o los perros ingresen a las áreas de tratamiento hasta que termine de regar y la superficie esté seca.

RESTRICTIONS

- Maximum of two applications per year. This product applies 5 lbs active ingredient per acre.
- This product must be WATERED IN IMMEDIATELY after application.
- Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator.
- Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application.
- Do not apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur.
- Do not use under trees, shrubs, bedding plants, flower or garden plants.

OTHER THINGS YOU NEED TO KNOW

• Kills weeds including dollarweed, clover, and other listed weeds. For severe weed problems, a second treatment may be required 2 months after the first.

SEEDING/SODDING/SPRINGING

- Apply Scotts® Turf Builder® Bonus® Southern Weed & Feed, after spring/sodding a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprig/sod, allow the grass blades to dry, then make the application of Scotts® Turf Builder® Bonus® S Southern Weed & Feed.
- Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice.
- Don't plant sprig/sod for one month, or sow new grass seed for six months following application of Scotts® Turf Builder® Bonus® S Southern Weed & Feed.

RESTRICCIONES

- Máximo dos aplicaciones al año. Con este producto se aplican 0.8 kg de ingrediente activo por acre.
- Este producto debe REGARARSE INMEDIATAMENTE después de su aplicación.
- No lo aplique manualmente ni con dispositivos manuales tales como un aplicador portátil.
- No lo aplique este producto de forma que entre en contacto con otras personas, ya sea directamente o al ser arrastrado por el viento. Durante la aplicación, mantenga alejados del área a las personas y las mascotas.
- No lo aplique en céspedes o mezclas de céspedes bahía, Bermuda, hierba azul, festuca o calandina roja, agrotis, raygras, festuca o calandina alta, o dicóndra, pues puede dañarlos.
- No lo utilice debajo de árboles, arbustos, plantas de maciso o de jardín, o flores.
- No aplique a céspedes cubiertos por alfombra verde o césped sintético.

SEMBRADO DE SEMILLAS/TEPES/RETOSNOS

- Aplique el herbicida y fertilizante para céspedes del sur, Turf Builder® Bonus® S de Scotts® después de plantar retosnos o cubrir con césped San Agustín o zoysia en un nuevo patio, para evitar que comience la competencia de las malezas.
- No aplique a céspedes recién sembrados de centopéidos y alfombra verde hasta después de por lo menos el segundo corte de césped.
- No plantar retosnos ni tepes por un mes, ni sembrar semillas de césped por seis meses, después de la aplicación del herbicida y fertilizante para céspedes del sur, Turf Builder® Bonus® S de Scotts®.

TIPS FOR LAWCARE SUCCESS

Feed Regularly

Regular feedings provide the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought & family activity.

Check with your local Cooperative Extension Agency to obtain specific information on local turf feed management practices. Check with your county or city government to determine if there are local regulations.

Mow and Leave the Grass Clippings on Your Lawn

Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively. Grass clippings recycle the plant nutrients back into the soil.

Conserve Water

Well-fed lawns are more efficient at using available water. Feeding with Scotts® lawn food helps grow a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat drought and other stresses. Remember your lawn will begin to wilt when water is needed, as much as possible take advantage of nature's sprinkler and rely on the rain to water your lawn.

Benefits of Multiple Feedings

1 ANNUAL FEEDING	2-3 ANNUAL FEEDINGS	4 ANNUAL FEEDINGS
------------------	---------------------	-------------------

SCOTT'S® RECOMMENDED FEEDING ROUTINE

SPRING

A spring feeding helps grass get going after its initial green up. You should feed around the first time you mow your grass.

LATE SPRING

Feeding now prepares grass for summer by making more blades on top and building deep roots below.

SUMMER

A summer feeding provides grass the nutrients they need to thrive during the summer months.

EARLY FALL

Feeding now helps grass store nutrients to deal with the stress of the winter months.

Florida Applications: 4 annual feedings with the following exceptions: On centipedegrass do not exceed 2 feedings in the north & 3 feedings in the central and south. On zoysia do not exceed 3 feedings in the north. North Florida is defined as north of a line extending from Cedar Key to Daytona Beach. Central Florida is defined as south of the line extending from Cedar Key to Daytona Beach to a line extending from Tampa to Vero Beach. South Florida includes the remaining southern portion of the state.

Scotts® & Your Environment

Scotts® products are designed with care to grow a thicker, greener lawn. A Green Lawn is a Good Lawn - A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion. You can make a difference - Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back onto your lawn.

Scotts®

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

PRECAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. Call 1-800-443-8873.

ENVIRONMENTAL HAZARDS: This product is toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent rain from washing water bodies or drainage systems. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not clean equipment over hard surfaces or near storm drains. Atrazine can travel (go) or leach through soil and enter ground water, which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine on sand and loamy soils where the water table (groundwater) is close to the surface and where these soils are very permeable, i.e., well drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a clean, dry place. Repeat opened bag by folding top down and securing.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or other for recycling if available. If partly filled: Call your local waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

AVISOS DE PRECAUCIÓN Riesgos para humanos y animales domésticos

PRECAUCIÓN: Causa irritación moderada en los ojos. Evite el contacto con los ojos, la piel o la ropa.

PRIMEROS AUXILIOS

SI ENTRA EN LOS OJOS: mantenga el ojo abierto y enjuague con agua despacio y con cuidado por 15 a 20 minutos. Si tuviera lentes de contacto, quítelos después de lavarlos con agua los primeros 5 minutos y luego continúe enjuagando el ojo. **SI CAE EN LA PIEL O LA ROPA:** Quítela la ropa contaminada. Enjuague la piel inmediatamente con mucha agua por 15 a 20 minutos. **SI SE INGERE:** Llame inmediatamente al centro de control de envenenamientos o al médico para obtener recomendaciones de tratamiento. Haga que la persona tome sorbos de un vaso con agua, si puede tragar. No induzca el vómito a menos que lo indique un centro de control de envenenamientos o el médico. No le de nada por la boca a una persona que haya perdido el conocimiento. **SI SE INHALA:** Lleve a la persona al aire fresco. Si la persona no respira, llame al 911 o a una ambulancia y luego, de ser posible, dele respiración artificial (de boca a boca, preferiblemente). Llame al centro de control de envenenamientos o al médico para obtener recomendaciones de tratamiento. Tenga el envase del producto o la etiqueta con usted cuando llame a un centro de control de envenenamientos o al médico, o al acudir a recibir tratamiento. Llame al 1-800-543-8873.

RIESGOS AMBIENTALES: Este producto es tóxico para los invertebrados acuáticos. Para proteger el medio ambiente, no permita que el pesticida penetre o se escurre en drenajes pluviales, arroyos de desechos, cuevas o aguas superficiales. La aplicación de este producto en un clima tranquilo, cuando no haya un pronóstico de lluvia para las próximas 24 horas, asegurará que el viento o la lluvia no soplen o laven el pesticida fuera del área de tratamiento. Barra el producto que caiga sobre la entrada de automóviles, la acera o la calle hacia el área tratada del césped para evitar que se escurra a cuerpos de agua o sistemas de drenaje. Los escorrentías o la dispersión desde las áreas tratadas pueden ser peligrosas para las organismos acuáticas de las zonas adyacentes. No contamine el agua al limpiar los utensilios ni al desahucarse del agua que usa para lavarlos. No lave los utensilios sobre superficies duras ni en cerca de drenajes pluviales. La atrazina puede desplazarse (filtrarse o lixiviarse) por el suelo y penetrar el agua del subsuelo. La cual podría utilizarse como agua para beber. Se ha encontrado atrazina en el agua del subsuelo. Se advierte a los usuarios no aplicar atrazina en suelos arenosos ni margosos, donde el manto freático (el agua del subsuelo) está cerca de la superficie y la tierra es muy permeable; por ejemplo, suelos con buen drenaje. Sus organismos acuáticos locales pueden proporcionar más información sobre la clase de suelo de su zona y la ubicación el agua subterránea.

ALMACENAMIENTO Y ELIMINACIÓN

ALMACENAMIENTO DEL PESTICIDA: Guardar en un lugar limpio y seco. Cierre la bolsa abierta doblando la parte superior y asegurándola.

ELIMINACIÓN DEL PESTICIDA Y MANEJO DEL ENVASE: Este envase no se puede rellenar. No vuelva a usar ni a llenar este envase. Si está vacío: Ténelo a la basura o, si está disponible, ofrézcalo para reciclaje. Si está parcialmente lleno: Llame a su agencia local de desechos sólidos para obtener instrucciones sobre cómo eliminarlo. Nunca elimine el producto no utilizado en drenajes internos o externos.

NOTICE: To the extent consistent with applicable law, buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

AVISO: En la medida contemplada por las leyes aplicables, el comprador asume todos los riesgos de uso, almacenamiento o manejo de este producto si no se siguen las instrucciones.
