Key Features

6600lbs Loading Capacity

This triple airbag jack can support 6600 lbs/3T. It can be used to lift your small cars, family cars, minivans, SUVs and off-road vehicles, or other heavy objects.

5.5"-15.75" Lifting Range

It only takes 3-5 seconds to lift from 5.5"/140 mm to 15.75"/400 mm, the max. Lifting height is suitable for most vehicles. Working Temp: -60°C~50°C.

Thickened Rubber

The thickened rubber and steel plate work together to make the lifting securer and more stable. And the combination also reduced the impact and led to precise lifting.

COMPACT SIZE

Easy Operation

There are three valves on this triple airbag jack: air input valve, air outlet valve, relief valve, which can help you operate the jack securely and quickly.

Long Lever Handle

A removal handle does not occupy too much space, and you can put it in your trunk and use it for any emerge. In addition, the long handle and the wheels make it easy to drag.

Wide Application

The pneumatic jack lift is great for heavy lifting in auto shops, repair shops, household warehouses and is suitable for family cars, minivans, SUVs, off-road vehicles, etc.
