BEST FOR	>	Commercial Areas, Workshops, Garages, Basements
HEAVY COVERAGE	>	500 Sq. Ft. per box
PARTIAL COVERAGE	>	1000 Sq. Ft. per box
CLEAR TOPCOAT	>	RockSolid® Professional Clear Topcoat is required over heavy decorative chip coverage

DIRECTIONS FOR USE

RockSolid Professional Decorative Chips are for use with RockSolid Professional Industrial Floor Coatings. When broadcast onto a freshly coated surface, these decorative chips bond to the wet film to become a permanent part of the coating. RockSolid Professional Decorative chips also help to hide dirt and surface imperfections.

Working in sections, apply RockSolid Professional Industrial Floor Coating and toss RockSolid Professional Decorative Chips onto the wet coating after each section.

IMPORTANT: When tossing decorative chips, leave a 6" - 12" wet edge (without chips). Apply RockSolid Clear Topcoat (required for Heavy Coverage) after 12 hours and within 7 days of the RockSolid Professional Industrial Floor Coating.
