# The Plano™ Collection

## Real Hardwood Flooring at an Affordable Price

Wood is a natural material containing distinctive differences in color and grain configurations. It is these differences, caused by nature, that create the warmth, beauty and originality of each hardwood floor.

The Plano Collection is part of Bruce's Common Grade category which features a greater amount of visual character such as wider color and grain variation, mineral streaks, knots and small holes as well as minor milling imperfections.

- 3 fashion-forward colors available in 3-1/4" wide scraped solid hardwood
- 3 additional popular colors available in 2-1/4", 3-1/4" and 5" wide traditional smooth-faced hardwood; or 3" and 5" wide engineered hardwood
- 15-Year Limited Residential Warranty
- Made in USA and featuring more than 90% domestic content

# How to Choose Hardwood Flooring

**Select your Construction – Engineered, Solid, or Solid Scrape construction for use in any room.**

## **Engineered**

Available in 3" and 5" widths

Engineered hardwood flooring may be installed on all grade levels, even the basement using either staple or glue-down installation method.

## **Solid**

Available in 2-1/4", 3-1/4", and 5" widths, 3/4" thick

## **Solid Scrape**

Available in 3-1/4" width only, 3/4" thick

Solid hardwood flooring is designed for installation on or above ground level and is installed by nailing boards to a wood subfloor.

### **Subfloor Construction**

Depending on whether you choose solid or engineered hardwood, they may be installed using glue, nails, or staples. Glue-down installations are usually over concrete, vinyl and other non-nailable surfaces. Nails or staples are used when installing over wood subfloors.
