

USE & CARE MANUAL:

When not in use, keep furniture covered or in a dry, sheltered area away from extreme heat, freezing conditions and inclement weather. Clean by wiping with a damp cloth. For tougher dirt or stains, you may use a soft bristle brush and a warm solution of mild soap and water. Do not use any abrasive materials.

IF YOUR SET INCLUDES CUSHIONS:

Please note that while the covers on your new outdoor set are composed of strongly water repellent material, if left out in the rain or within the range of sprinklers, they will absorb moisture through the seams. We suggest covering or storing your new cushions indoors when not in use. If the cushions do get wet, stand them on their sides to allow the water to drain out. For cleaning, use only mild dish soap and water, never use harsh chemicals.
