

LED WHITE FILAMENT

SPECIFICATIONS

Upgrade your lighting to Feit Electric's elegant Exposed White Filament LED Bulbs for a fresh take on vintage bulbs. These first-of-their-kind white filament bulbs take a traditional clear glass tube-shaped bulb and add lower-profile white filaments. Unlike yellow filaments, these blend into any décor style for a timeless look that complements any room. Their dimmable 2100K Warm White glow is ideal for creating a relaxing and comfortable atmosphere, with no harsh glare. Use these bulbs in any fixture with a medium E26 base for a variety of general-purpose and decorative lighting applications. T10L60/CLWFIL/HDRP/4 bulbs emit significantly less energy than standard 60-watt incandescent bulbs. A 90+ CRI infuses vibrance into your space, bringing out truer colors and more natural skin tones. Get up to 15,000 hours of life. Create a stylish feel that instantly enhances both home and commercial spaces.
