EASY TO USE DIRECTIONS:

- ⊗ Our Multi-Purpose SEALER may be applied to any countertop, outdoor project and heavily used surface that has dried for at least 24 hours.
- ⊗ Stir thoroughly. ⊗ Roll a **light** coat on all possible areas (an all-purpose fabric roller is preferred). ⊗ Brush out creviced areas with a soft bristle brush. (Note: Our Multi-Purpose SEALER will appear milky when applied but will dry clear). ⊗ Second light coat may be applied after 2-4 hours.
- ⊗ Allow to dry overnight (minimum 8 hrs.) before using. ⊗ Reapply our Multi-Purpose SEALER as needed. ⊗ Clean up with soap & water.

RECOMMENDED TOOLS:

- ⊗ Paint Tray. ⊗ Fabric or woven roller nap and handle. ⊗ Brush for stippling creviced areas.

EASY CARE DIRECTIONS:

- After 30 days curing time, maintain by washing with mild soap and water as needed.

Warning

Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 1.28%. This product is not classified according to EU legislation. Material data sheet available on request.

www.BeyondPaint.com

Initial curing period is 3 days; during this time standing moisture may cause surface to cloud. **light** coats are recommended to minimize the possibility of cloudiness once the surface has cured. This will clear when moisture is removed from surface. Allow each applied layer of BEYOND PAINT™ Countertop and Multi-Purpose SEALER to dry for as long as possible will add to quick cure time and optimal durability.

Optimal cure time: 30 days.

Keep your BEYOND PAINT™ product from extreme heat and direct cutting as you would on any other surface.
