Care and Cleaning

- ☐ Use mild soap and warm water to clean the frames.
- ☐ Rinse with clean water and dry thoroughly.
- ☐ Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove footcaps and tilt frames, if necessary, to remove all water. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to frame tubing. Such damage caused by conditions other than normal is not covered under warranty.
- ☐ Any rust spots should be lightly sanded and treated with rust inhibitor and followed with an application of touch-up paint (not included).
