

## MAINTENANCE

Due to teak wood's natural characteristics, wood color and grain variations may be present. This is a symbol of the originality of each unit and gives each finished piece a distinctive look and inherent charm.

Care Instruction :Teak wood, when left bare and unsanded, will naturally fade to a silver-gray color. This silver-gray color transformation does not in any way affect the durability of the furniture

If you choose to apply teak oil, apply every 6 months, or follow the teak oil container directions. Again, if you choose to maintain the smooth brown finish of your teak furniture, this method requires some regular maintenance, such as sanding and reapplication of teak oil. Teak oil, along with sanding, will help maintain the golden brown color.

**Do not leave your teak wood furniture in puddles of water or on wet ground.Cover your teak wood furniture during winter months or move into covered storage, if in wet climates.**
