

# LED light wand

## User Manual

### I. LOADING BATTERY:

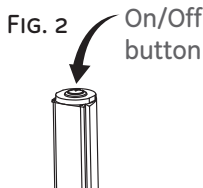

1. Unscrew the button by twisting the end cap counter-clockwise. A coin or flat screwdriver (not included) may be used if needed.
2. Push out the inner casing from the tube and insert 3 "AAA" batteries (not included), noting the correct polarity. Insert the casing back into the tube and screw the end cap back on. (see Fig. 1)

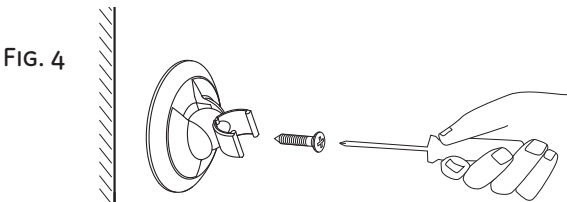

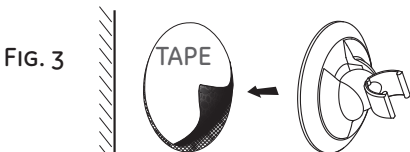

**Note:** Remove batteries when not in use.

### II. LIGHT MODE SELECTION:

Press the on/off button to cycle through to the preferred light mode. (see Fig. 2) This light offers 3 modes for use: ON (full brightness), ON (dim), and OFF.

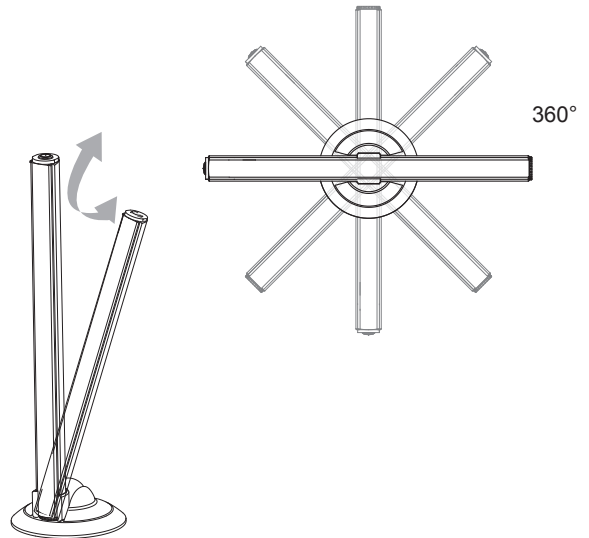

### III. INSTALLATION:

1. Mount the light in the desired position using the hook-and-loop tape (included) (see Fig. 3) or by using a screw (included). Note the diagram in Fig. 4 for proper installation using a screw.
2. Turn the power on and set the mode you need.
3. Snap the light tube into the stand clip.

### IV. FEATURES:

This device can be mounted nearly anywhere, and can be positioned vertically or horizontally. Additionally, the light can be detached from the base to be used as a hand-held utility light

**⚠ WARNING**

- BATTERIES MAY LEAK HARMFUL LIQUIDS OR IGNITABLE MATERIALS OR EXPLODE CAUSING INJURY AND PRODUCT DAMAGE
- DO NOT MIX OLD AND NEW OR OTHER BATTERY TYPES
- REPLACE ALL BATTERIES AT THE SAME TIME
- REMOVE BATTERIES IF PRODUCT IS TO BE UNUSED FOR EXTENDED PERIODS OF TIME
