| 2. Hazard(s) identification                  |  |                                   |  |
| Physical hazards                             | Not classified.  |                                   |  |
| Health hazards                               | Sensitization, skin  | Category 1A                       |  |
| OSHA defined hazards                         | Not classified.  |                                   |  |
| Label elements                               |  |                                   |  |
|  | $\langle \mathbf{i} \rangle$   |                                   |  |
| Signal word                                  | Warning  |                                   |  |
| Hazard statement                             | May cause an allergic skin reaction.   |                                   |  |
| Precautionary statement                      |  |                                   |  |
| Prevention                                   | Avoid breathing mist/vapors. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves.                        |                                   |  |
| Response                                     | If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. |                                   |  |
| Storage                                      | Store away from incompatible materials.  |                                   |  |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.  |                                   |  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |                                   |  |
| Supplemental information                     | None.  |                                   |  |
| 3 Composition/informatic                     | n on ingradiante   |                                   |  |

## 3. Composition/information on ingredients

| ktures   |             |         |
|--|-------------|---------|
| Chemical name  | CAS number  | %       |
| Silica gel, precipitated,<br>crystalline-free        | 112926-00-8 | 1 - 5   |
| 3-(2-aminoethylamino)propylm<br>ethyldimethoxysilane | 3069-29-2   | 0.1 - 1 |
| 2-Methyl-2H-isothiazol-3-one                         | 2682-20-4   | 0 - 0.1 |

| 5-Chloro-2-methyl-2H-isothiaz<br>I-3-one                                   | o 26172-55-4 0 - 0.1   |
|--|--|
| Composition comments   | All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.   |
|  | The manufacturer has claimed the exact percentage as trade secret under the OSHA Hazard Communication Standard.  |
| 4. First-aid measures  |  |
| nhalation  | Move to fresh air. Call a physician if symptoms develop or persist.  |
| Skin contact   | Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.   |
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.   |
| ngestion   | Rinse mouth. Get medical attention if symptoms occur.  |
| Most important<br>symptoms/effects, acute and<br>delayed                   | May cause an allergic skin reaction. Dermatitis. Rash.   |
| ndication of immediate<br>nedical attention and special<br>reatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation Symptoms may be delayed.  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.  |
| 5. Fire-fighting measures  |  |
| uitable extinguishing media  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).  |
| Insuitable extinguishing<br>nedia  | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from<br>he chemical                               | During fire, gases hazardous to health may be formed.  |
| Special protective equipment<br>and precautions for firefighters           | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  |
| Fire fighting<br>equipment/instructions                                    | Move containers from fire area if you can do so without risk.  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.   |
| General fire hazards   | No unusual fire or explosion hazards noted.  |
| 6. Accidental release meas   | sures  |
| Personal precautions,<br>protective equipment and<br>emergency procedures  | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |
| Methods and materials for<br>containment and cleaning up                   | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.   |
|  | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.   |
|  | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SI  |
| Environmental precautions  | Avoid discharge into drains, water courses or onto the ground.   |
| 7. Handling and storage  |  |
| Precautions for safe handling  | Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Obse   |

good industrial hygiene practices. **fe storage,** Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

Conditions for safe storage, including any incompatibilities

# 8. Exposure controls/personal protection

## Occupational exposure limits

| Components   | Туре  | Value   |
|--|---|---|
| Silica gel, precipitated,<br>crystalline-free (CAS<br>112926-00-8) | TWA   | 0.8 mg/m3   |
|  |   | 20 mppcf  |
| US. NIOSH: Pocket Guide  | to Chemical Hazards   |   |
| Components   | Туре  | Value   |
| Silica gel, precipitated,<br>crystalline-free (CAS<br>112926-00-8) | TWA   | 6 mg/m3   |
| Biological limit values  | No biological exposure limits noted   | for the ingredient(s).  |
| Appropriate engineering<br>controls                                | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |   |
| ndividual protection measure                                       | s, such as personal protective equipr   | nent  |
| Eye/face protection  | Wear safety glasses with side shield  | ls (or goggles).  |
| Skin protection  |   |   |
| Hand protection  | Wear appropriate chemical resistant gloves.   |   |
| Skin protection  |   |   |
| Other  | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.  |   |
| Respiratory protection   | If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. Use a positive-pressure air-supplied respirator if there is any potential for ar uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.     |   |
| Thermal hazards  | Wear appropriate thermal protective clothing, when necessary.   |   |
| General hygiene<br>considerations                                  | and before eating, drinking, and/or s   | ene measures, such as washing after handling the material<br>moking. Routinely wash work clothing and protective<br>Contaminated work clothing should not be allowed out of the |

# 9. Physical and chemical properties

| Appearance   |                                  |
|--|----------------------------------|
| Physical state   | Liquid.                          |
| Form   | Liquid.                          |
| Color  | Opaque.                          |
| Odor   | Slight.                          |
| Odor threshold   | Not available.                   |

| Decomposition temperature                  | Not available.  |
| Viscosity                                  | 50 - 140 KU   |
| Other information                          |   |
| Density                                    | 8.93 lb/gal   |
| Explosive properties                       | Not explosive.  |
| Oxidizing properties                       | Not oxidizing.  |
| VOC  | 18 g/l (including water) (Material)<br>46 g/l (excluding water) (Coating) |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                   | Contact with incompatible materials.  |
| Incompatible materials                | Strong oxidizing agents.  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |

# 11. Toxicological information

#### Information on likely routes of exposure

| Inhalation   | Prolonged inhalation may be harmful.                     |
|--|--|
| Skin contact   | May cause an allergic skin reaction.                     |
| Eye contact  | Direct contact with eyes may cause temporary irritation. |
| Ingestion  | May cause discomfort if swallowed.                       |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | May cause an allergic skin reaction. Dermatitis. Rash.   |

#### Information on toxicological effects

#### Acute toxicity

| Components                             | Species  | Test Results          |
|--|--|-----------------------|
| Silica gel, precipitated, crystalline- | free (CAS 112926-00-8)                                   |                       |
| <u>Acute</u>                           |  |                       |
| Dermal                                 |  |                       |

| Aspiration hazard   | Not an aspiration hazard.  |   |  |
| Chronic effects   | Prolonged inhalation may be harmful.   |   |  |
| 12. Ecological information  | 1  |   |  |
| Ecotoxicity   | Toxic to aquatic life. Harmful to aquatic life with long lasting effects.  |   |  |
| Persistence and degradability   | No data is available on the d  | egradability of any ingredients in the mixture.             |  |
| Bioaccumulative potential   | No data available.   |   |  |
| Mobility in soil  | No data available.   |   |  |
| Other adverse effects   | The product contains volatile potential.   | organic compounds which have a photochemical ozone creation |  |
| 13. Disposal considerations   |  |   |  |
| Disposal instructions   | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the material under controlled conditions in an approved incinerator. Dispose of contents/container in accordance with local/regional/national/international regulations. |   |  |
| Local disposal regulations  | Dispose in accordance with all applicable regulations.   |   |  |
| Hazardous waste code  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |   |  |
| Waste from residues / unused  | Dispose of in accordance with local regulations. Empty containers or liners may retain some  |   |  |

 products
 product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

#### 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

# Transport in bulk according to<br/>Annex II of MARPOL 73/78 and<br/>the IBC CodeNot established.

# 15. Regulatory information

#### US federal regulations

IationsThis product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication<br/>Standard, 29 CFR 1910.1200.All components are listed on or exempt from the U.S. EPA TSCA Inventory List.
