VF6500
OSHA Compatible Kit

(1) HEPA-Media Filter and (2) Cyclonic Pre-Separator Dust Bags for select RIDGID Wet/Dry Vacs

The RIDGID OSHA compatible kit with HEPA-media filter and cyclonic pre-separator dust bags includes 1 RIDGID VF6000 5-layer allergen filter and 2 RIDGID VF3602 premium cyclonic dust bags. When installed together (in select RIDGID vacs listed below), this kit is OSHA Silica Table 1 Compatible for certain dry dust collector control methods and HEPA-filtered vacuum control methods (1926.1153) within the limitations of their airflow performance. Included dust bags allow for cyclonic airflow, resulting in pre-separation and more equal distribution of fine particles and debris throughout the bag. Kit is OSHA silica table 1 compatible when used with select RIDGID vacs 12 Gal. to 16 Gal. and hand-held power saws for cutting fiber cement-board (with blade/wheel diameter of 4 in. or less) and handheld grinders for mortar removal (i.e. tuck-pointing) and uses other than mortal removal. Compatible vacs listed below.
