ARB Teak & Specialties

ARB Teak & Specialties, the leader in the teak shower bench industry, is expanding to outdoor and pool furniture. Our unique high-quality teak bathroom and spa products can be seen in homes and businesses throughout the western hemisphere. Now our design expertise and exacting standards can help you upgrade your outdoor and pool spaces. You will love our curated line of furniture for your patio, garden, and poolside/hot tub areas. We are also available for custom projects!

Our products are environmentally sustainable and socially conscious: our teak wood is harvested from carefully managed Perum Perhutani plantations in Indonesia and crafted by artisanal woodworkers employed by a family-owned company.

Every single A·R·B Teak table, chair, and accessory is made from 100% natural, ecologically harvested, grade A Indonesian teak wood that has never, ever been oiled.

That's because we believe every single client deserves to discover and experience the true quality that only 100% natural grade A teak possesses.

Benefits of Teak Wood:

Why You Should Have Teak Outside Your Home

Teak wood is the gold standard for outdoor and bath furniture. From its many uses to its luxurious looks, teak wood is unmatched in quality and appearance. At the same time, it offers a variety of benefits to those who choose it for their outdoor and bath furniture needs.

✓ **DURABILITY.** Teak is one of the most durable wood species available for commercial use. Teak is exceptionally strong and can last for generations in a wide variety of climates, thanks to its high-density rubber content, which leaves it impervious to rain, weather, and pests. It's virtually immune to rot, does not warp or crack even if exposed to extreme temperatures, humidity, and weather conditions—and it gets better with age!

✓ **LOW MAINTENANCE.** Teak requires little maintenance, making it ideal for bustling homes with busy schedules. Unlike other woods, teak requires no sealant or stain; instead, it develops a beautiful silvery-grey patina with exposure to the elements over time. If you prefer the warm golden hue of un-weathered teak, the patina can be easily removed with a light scrub using a soft bristle brush and soapy water. The only maintenance required is occasional cleaning with soap and water to remove dirt. Please do not use harsh chemicals or abrasives to clean teak, as they can damage its finish. Low maintenance means less time spent caring for your furniture and more time relaxing in the comfort of your own patio, backyard, or bath/spa!

✓ **SELF-REGULATING PRINCIPLE.** As an all-natural product made from trees grown in tropical climates, teak self-regulates its pH levels, meaning that it does not require any special treatment to maintain its natural beauty. When exposed to water, teak naturally releases oils that make it more resistant to moisture and prevent mold growth in humid conditions. Teak is also naturally self-regulating in temperature. It won't get too hot in the sun or too cold in the shade—so it will always feel comfortable no matter what time of year it is or where you place it.

✓ **SUSTAINABILITY AND LIFESPAN.** Teak is also known for being one of the most sustainable woods available today. At ARB Teak & Specialties, we use only legal wood sanctioned by the Indonesian Government and harvested at Perum Perhutani plantations to manufacture our products. In these plantations, teak trees are grown specifically for furniture fabrication, following strict forest development plans and reforestation programs without harming other plant life. Perum Perhutani plantation policies ensure that there will be plenty of teak trees available in the future so that we can enjoy this beautiful material for decades to come!

At ARB Teak & Specialties, we use only the finest teak wood to construct our outdoor and bath/spa furniture, made with unyielding environmental conscience and ethics. Your body will appreciate the comfort and quality of our products keeping you cool and fresh while enjoying a hot summer day by your pool or warm and cozy during a cool late-fall evening on the patio.

You'll love ARB Teak & Specialties Teak products' earthy tones and the luxurious look and feel they give to your outdoor and bath/spa spaces!

Teak wood is available in 3 different quality grades: A, B, and C. This is important to know because the grade of the teak wood plays a key role in the performance and durability of the furniture it is made into.

At first glance, you might think all teak looks the same. But remember, looks can be deceiving!

Let's look at what makes the grades different from one another. But first, a quick lesson on trees.

HOW TREES GROW AND WHY IT MATTERS TO YOU

1. Trees grow out from their center. This makes the heartwood (the center of the tree) the oldest, the strongest and the most oil rich part of the tree.
2. The outer layers are greenwood (or sapwood). Sapwood transports water from the roots to the leaves, making it the wettest part of the tree. It is not old enough to have developed any natural oil.

Why does this matter? Because wet wood warps and contains none of the natural properties that help protect itself from mold, mildew or insects. So just how can you tell this wood apart?

NATURAL GRADE A TEAK IS ...

- Heirloom quality. It does not rot and lasts for generations.
- Maintenance free. Wash periodically with mild soap, water, and a bristle brush to remove soap and product residues. That's it!
- Mold and bacteria resistant, contributing to health in the bathroom.
- Naturally anti-slip, which makes your shower or bath safer to use.

Dining Tables

Find the perfect table in our collection, no matter your style. Made of 100% Grade A teak, these tables will last a lifetime and require almost no maintenance.

A two-step wooden stool made of teak, positioned on a stone patio next to a hot tub. The hot tub has a white top and a dark brown wooden panel. The background shows green foliage and a brick wall.

Hot Tub & Step Stools

BEN548

A safer and easier way to step up to your hot tub. Made from 100% grade A teak, it's designed to stay outdoors all year long. Winter or summer, relaxing in a hot tub reduces stress and anxiety while creating a feeling of well-being. If you have a free-standing style hot tub, you'll need a boost getting in.

Outdoor Shower Mats **MATS / TILES**

Outdoor Shower Mats

Adding a custom teak floor to your existing shower base will dramatically change the look and feel of your outdoor space by adding warmth to your décor, creating a focal point, and instantly updating your garden or patio. A·R·B Teak mats can be used on your existing shower base, including acrylic bases, tiles, and concrete. They are also great for use around the pool or hot tub.

Rubber feet not included.

70" L x 50" D x 1 ½" H
178 cm L x 127 cm D x 4 cm H

We can cut your mat to your exact requirements. Select a mat that is slightly larger than the area to be covered.

Mat cutting fee: \$80/mat net. No discount.

HOW TO MEASURE

1. Measure the distance from wall to wall on all sides, inside the base.
2. Subtract $\frac{1}{4}$ " from the width and depth to allow the mat to be easily removed for cleaning.

Allow 3 weeks for delivery after placing order.

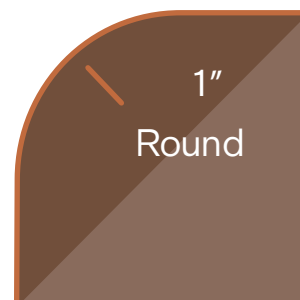

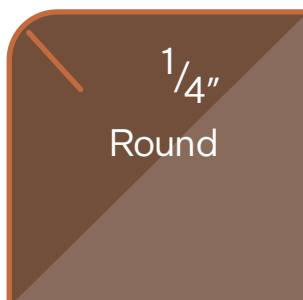

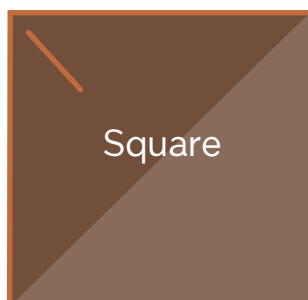

Custom Mat Measurements Example:

Depth: $36 \frac{1}{4}" = 36" \cdot 92.1 \text{ cm} = 91.44 \text{ cm}$

Width: $42 \frac{1}{4}" = 42" \cdot 107.3 \text{ cm} = 106.7 \text{ cm}$

Choose between these 4 corner styles when ordering a custom cut:

Custom Orders

Dreaming of the perfect custom teak piece for your home or business? ARB Teak & Specialties offers custom manufacturing tailored to your requirements.

Shower benches, shower bases, floor tiles, vanities, and more – you name it, we can build it.

CARE INSTRUCTIONS

Teak is maintenance-free. Grade A teak, when left 100% natural, doesn't need any protection from the weather, elements or pests. It already contains everything it needs to take care of itself. Contrary to popular belief, you don't need a special 'teak cleaner' or 'teak oil' to take care of your teak – ever! In fact, once treated, there are no guarantees how the piece will handle itself when exposed to the elements.

Here's how to take care of teak properly:

Before Use

Before use, wash using a plastic bristle brush, dish soap, and water to remove manufacturing sawdust and surface oil. This is important because manufacturing residue can cause stains if the teak is not cleaned before use.

Cleaning

- Use a constant flow of water
- Brush in the direction of the grain
- Don't forget to flip your shower benches and mats over to get underneath.

Regular cleaning

- Rinse the item with warm water and scrub with a plastic bristle brush.
- In addition to cleaning exposed surfaces, the undersides of shower mats and benches should be washed to remove soap and product residue build-up.
- Use only a soft bristle brush, mild soap, and warm water. Detergents or abrasive products can damage your teak and harm its durability.

So now you know: once a client opts for a well-made grade A teak shower bench or mat, there's not much more they need to do but relax and enjoy their spa-like shower experience. Any suggestion that natural grade A teak requires regular maintenance beyond mild soap and a bristle brush is due to either ignorance or an attempt to hide inferior quality wood, and it will compromise the quality of the piece.

Have you heard or read something different on how to clean teak?
Don't hesitate to reach out to us with any questions that you might have.

TEAK UNIVERSITY

A·R·B Teak lives and breathes Indonesian teak furniture. It is because of this passion that we are committed to sharing our wisdom and knowledge so that you too can become a teak expert.

We truly believe the more you learn about teak, the more you will not only come to see it as the only solution for bath and spa furniture, but also come to fall in love with it like we have!
