OUR STORY

Nature in all its beauty is the inspiration and playground for our brand. We provide innovative and aesthetically pleasing wood solutions for architects, developers, builders, retailers, craftsmen and homeowners alike. Through experimentation and innovation, our wide selection of wooden panelling products is born and manufactured with a passion for details and style. Composed of numerous curated designs, our collections will adorn any space.

An aerial photograph of a winding road through a dense, green forest. The road is light-colored and curves through the trees. A semi-transparent white box is overlaid on the center of the image, containing text.

OUR COMMITMENT TO THE ENVIRONMENT

We consider protecting the environment a critical issue of our time. We take responsible forest management seriously and are committed to sourcing and offering products in accordance with the various standards of the Program for the Endorsement of Forestry Certification (PEFC) and the Forest Stewardship Council (FSC).

SETTING THE TREND

The **TIMBERWALL** wood wall collection reflects our vision of affordable and accessible design. We love wood, plain and simple. It connects us with nature and defines us as a company. It allows us to creatively express ourselves. Wood in any shape or form inspires us to push boundaries of design and innovation.

A photograph of a wood mill. The background is a large stack of logs, cut into sections, arranged in neat rows. In the foreground, a large, light-colored log lies horizontally. On the right side, a blue-painted mechanical saw is visible, featuring several large gears and a hand crank. The scene is lit with warm, natural light, highlighting the textures of the wood and the metal.

REWORK COLLECTION

Storm

Charcoal

Calx

Flame

A vibrant, close-up photograph of a field of tall, green grasses or reeds. The plants are densely packed and show varying shades of green, from bright lime to deep forest green, suggesting different species or growth stages. The lighting is bright, creating strong highlights and deep shadows that emphasize the texture and height of the vegetation. The overall composition is a natural, textured mosaic of green.
