Large Cooking Area

21.3 x 11.8-in cooking area allows you to cook more food, which is very suitable for enjoying delicious food with family and friends during dinner or camping.

Temperature Control

The electric grill is equipped with accurate temperature control, the rotary knob can be adjusted freely from 50°C to 300°C, and the internal heating pipe can help uniform heating.

Humanized Details

We provide you with four skid-proof solid rubber soles, cooling ports to promote heat dissipation, and raised baffles to keep oil splash, making you more comfortable to use.

Convenient to Clean

When cooking, there is an oil drop hole on the panel to deal with the waste. In addition, there is an oil collecting box under which to store the waste. After use, pour out the rubbish. The stainless steel panel is easy to clean.

Oil Brush and Shovel

You will get two oil brushes to help you spread the oil evenly on the panel or food and two shovels to help you stir fry the food during cooking to make the food more delicious.

Extensive Application

Our commercial grill can be used to cook meat, eggs, pancakes, steak, and other food and can be used in domestic or commercial kitchens. Very suitable for dinner parties.
