## 4 PCS BOAT FENDER

8.5" x 27"

 UV Resistance

 Seawater Resistance

 High-quality Vinyl

### 8.5" X 27" Boat Fender

Our fenders are made of high-quality materials and are designed to provide optimal protection for your boats and watercraft. Boat Fender features a ribbed design and reinforced rope holds, the right choice for use in boat locks and tidal areas. With the fender, it can remove your doubt or worry about the safety and protection of your boat.

Note

- 1. Please use the special inflation needle to inflate; otherwise, the unsuitable inflation needle will damage the air valve.
- 2. Please note that the needle must be inserted vertically and entirely into the air valve; tilting or incompletely inserting will damage the air valve.
- 3. Please inflate the buoy to its standard diameter. Especially in summer, the weather will be hot, and the air will expand, so it is better to reserve some space for it. The recommended inflation is 2psi, about 0.013Mpa.
- Boat Shield & Protection
- Reinforced Eyelets
- Superb Durability
- Simple & Quick To Use
