

8-INCH ION® X ELECTRIC ICE AUGER

MODEL NUMBER: 29250

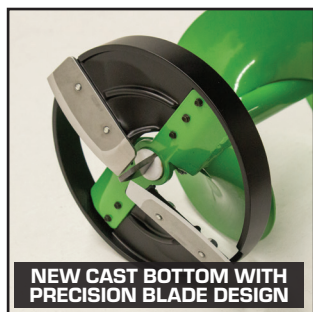

PRODUCT NAME: 8-Inch ION® X Electric Ice Auger

PRODUCT DESCRIPTION: 8-Inch ION X Electric Ice Auger with Reverse

PRODUCT TAGLINE: The New Standard in High-Performance Electric Augers

We took the world's best auger and made it better. The re-designed ION X is built for extra holes and increased precision. The all-new 40V 5 amp-hour XC5 Battery increases charge capacity by over 60%, allowing ice anglers to cut up to 1600 inches of ice on a single charge. Whether drilling new holes or re-drilling old, frozen-over holes, ION X's innovative cast bottom with centering point cuts more smoothly and accurately than ever before.

POWERED BY
XC5

**NEW CAST BOTTOM WITH
PRECISION BLADE DESIGN**

**DUAL LED LIGHTING
WHEN DRILLING**

**REDESIGNED POWERHEAD
AND HANDLEBARS**

FEATURES:

- **5 Amp-Hour 40V XC5 Battery.**
The XC5 Battery offers over 60% higher storage capacity than the original ION battery. This extra capacity powers the ION X through up to 1600 inches of ice in ideal ice conditions on a single charge.
- **Cast Bottom.** ION X's new aluminum cast bottom results in smoother, more even cuts when drilling new holes or re-drilling old holes. We've taken the legendary smooth cut of the ION and made it even more precise.
- **Centering Point.** Allows for ultra-precise blade positioning when opening new holes.
- **ION® Reverse.** Reverse eliminates the need for an ice skimmer by flushing the ice down the hole.
- **Two LED Lights.** Positioned under the powerhead, two bright LED lights illuminate the ice surface making the ION X ideal for night operation and drilling inside dark shelters.
- **Re-designed Handlebars.** By bringing the handles closer to the powerhead, drilling next to the walls of your shacks and shelters is easier than ever.
- **Lower-profile Safety Trigger.** The new recessed safety trigger is set into the grips, allowing for more hassle-free operation.
- **Re-designed Powerhead Housing.** The ION X features a sleek, updated look and a more compact design.
- **Planetary Gear Transmission.** ION gives you maximum efficiency at the lightest weight possible. It offers the optimal combination of weight and high-powered delivery. The result is performance without unnecessary weight.
- **Lightweight. Easy to Carry.** At only 22 pounds, ION weighs nearly 40% less than typical gas-powered augers. That extra 10 to 15 pounds is substantial. This means less effort drilling and more opportunity to focus on fishing.

SPECIFICATIONS:

MOTOR	Brushless Electric
TRANSMISSION	Planetary
HANDLE DESIGN	Aluminum Yoke
BRAKE	Electronic Quick Stop
WEIGHT	22 lbs.
BATTERY	40V XC5 Lithium ION
AUGER LENGTH	34" (46" w/12" Extension)
CUTTING DIAMETER	8"
REVERSE SWITCH	Yes
PRODUCT WARRANTY	2-Year Limited
BATTERY WARRANTY	1-Year Limited

12-INCH AUGER EXTENSION INCLUDED
