

1 To begin enjoying your new Lucid topper, simply remove plastic packaging with the provided easy opener. If using scissors, be careful not to cut through to the topper.

2 Place topper on a flat surface in a well-ventilated room and allow 48 hours for expansion.

3 After your topper is fully expanded, you may begin enjoying the benefits of your new topper.

Due to the unique properties of memory foam, dimensions after expansion may vary; this is normal and will not affect the performance of your new topper.

New memory foam may initially have a slight odor; it is completely harmless and will dissipate over a short time with regular use.

Discoloration to memory foam may appear over time due to oxidization. Oxidization is a natural process that occurs when memory foam is exposed to light and will not affect the performance of your topper.
