

Select Series and Classic Series

Designed for Exceptional Performance

There is a range of design and style options to meet your needs, whether you're building a new home or updating the place you've lived in for years.

When you select Ply Gem windows and doors from The Home Depot, you get just that. Choose our beautiful, high performance windows with confidence.

Find the Right Window

Determine your project type

New Construction - For a new home or a home addition

Replacement - For replacing existing windows

Decide on an operating style

A wide variety of window and door styles provide functional, attractive options that fit the style of your home.

Identify your performance needs

Choose from our energy efficient glass options.

Customize your windows

Chose finishing touches like color, grilles and hardware.

Select Series

Stylish, durable windows with a variety of performance options.

The Select Series features a premium frame for long-term durability and many energy conserving options to help lower your heating and cooling costs. With a variety of window and door styles available, the Select Series offers the right design options and energy efficient choices for your home and the way you live.

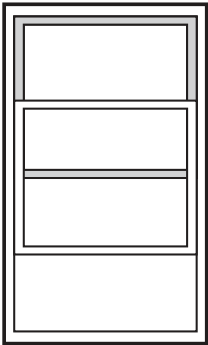

Classic Series

Streamlined frame to help let in more light.

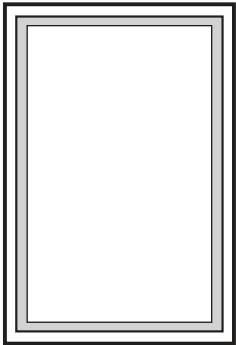

The Classic Series features large views that will open up your home, making it brighter and more inviting by optimizing natural light. These low maintenance vinyl windows and doors provide comfort, efficiency and beauty that you'll enjoy each and every day.

Key Features

Ply Gem's energy efficiency, ease of operation and performance features help to keep your home comfortable year round.

You can also configure the right windows for your needs, with a robust variety of glass packages, custom sizing and color options, available through special order.

Large finger pull rail for easy operation.

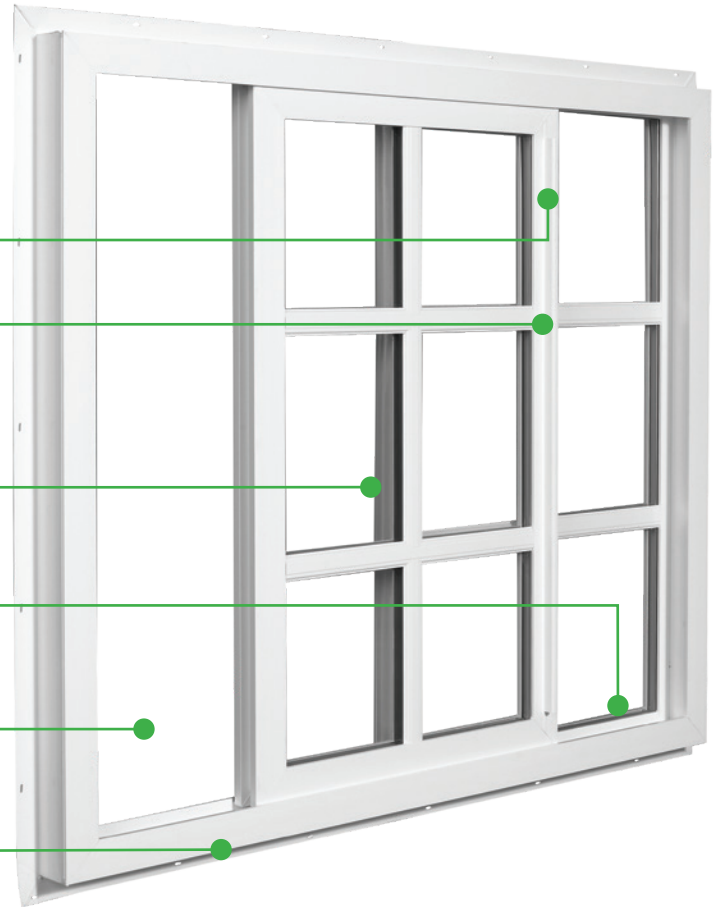

AutoLock for simple one-touch opening and secure closing. *Cam action sash lock available on Classic Series.*

Heavy-duty adjustable rollers for long lasting durability and smooth operation.

Operating sash is removable for safe and hassle-free cleaning.

Available in a variety of frame styles for easy installation.

Vinyl windows are low maintenance and never need painting.

Energy Performance

Optimize comfort, tranquility, security, energy efficiency and fade-resistance with these high-performing glass options.

Select Series can be configured with Energy Star Glass, with U-Factor of 0.27. In certain counties, this may qualify homeowners for Residential Rebate Programs.

Your Home Depot Associate can help you choose the right glass package for your area.

HP glass features specialty Low-E glass and Argon, which can greatly reduce solar heat gain and lower cooling costs in warmer regions.

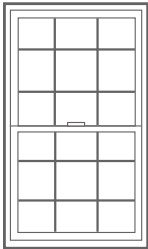

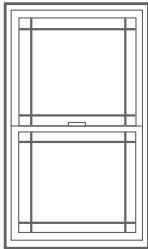

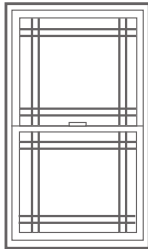

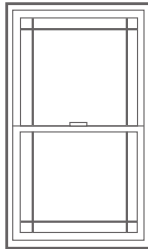

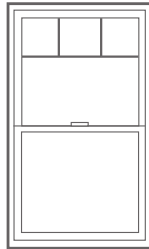

High Performance HP glass is a transparent coating that reduces summer heat for better cooling and helps keep warmed air inside during cold months.

HPMax triple-pane glass delivers up to 52% better thermal performance than dual pane windows with clear glass.

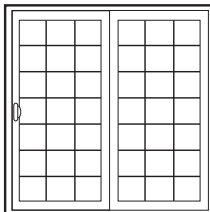

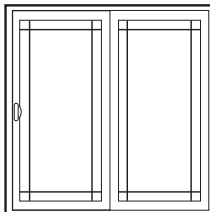

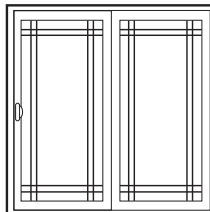

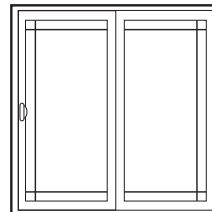

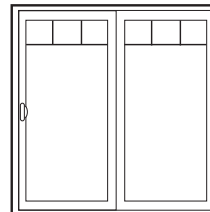

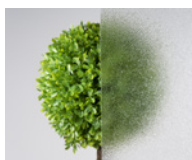

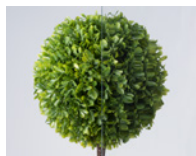

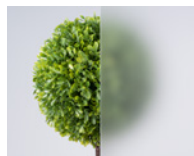

Low-E glass is a transparent coating that reduces summer heat for better cooling and helps keep warmed air inside during cold months.

Title 24 compliance – Select and Classic Series can be ordered to meet or exceed the California Energy Commission's standards.
