SOLAR PANEL SPECIFICATION

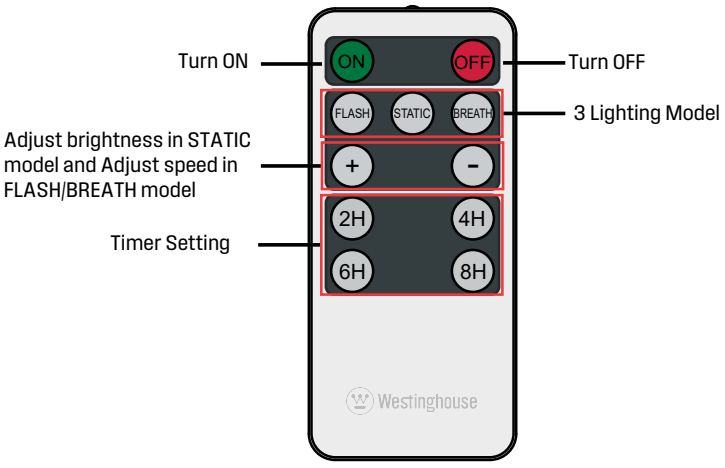

Tips

· When charging the solar panel via the USB port, the indicator will show 25%, 50%, 75%, and 100% battery levels

REMOTE CONTROLLER

Note: Remove the plastic tab from the remote control's battery compartment before use.

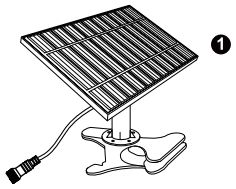

· When you press the Timing button, the string lights will blink once, indicating that your setting has been successfully applied.

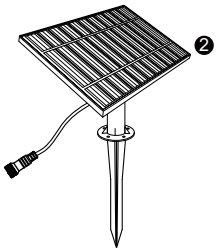

Made in China

INSTALLATION OPTIONS

Option 1: Use the included clip to attach the solar panel to a desired surface, making sure it is directly exposed to sunlight.

Option 2: Use the included stake to place the solar panel into the ground, ensuring it receives adequate sunlight for charging.

OPERATING INSTRUCTIONS

· Press the ON button on the light to activate it before using the remote control.
· The solar panel is light-sensing. Please make sure there is no other light source shining on the solar panel when you want the light to operate.
· During bad weather or low sunlight, it is recommended to charge the solar panel via the USB port.
· The string light and bulbs are suitable for wet locations, but the remote control is not waterproof. Please keep it dry.
· If the string light does not work properly, please check the following:
Ensure the solar panel switch is turned ON, as the string light only works in ON mode.
Try charging the light via the USB port for about 6 hours. The indicator light will stay on continuously when charging is complete.
· This solar light includes an automatic shutdown function after operating for 8 hours each day. If you need it to continue working, turn it on again using the solar panel or remote control.
· When fully charged, the solar light will automatically turn on at night and off during the day without manual operation.

MEMORY FUNCTION

This string light features a memory function, allowing it to remember the last setting you selected when turned back on.

Important:

· Pressing the ON/OFF button on the solar panel will reset the light, and it will not retain your previous setting.
· If the battery is fully drained, the string light will lose the memory function and will not remember the last setting.

LIMITED WARRANTY DO NOT RETURN THIS PRODUCT TO THE STORE

This product comes with a 12-month warranty starting from the date of purchase. If you have questions or need assistance, please call customer service at 1-888-445-8974 or email us at: support@solarlights.westinghouse.com
