

## Measurements for Replacing a Prehung Door

- 1 **Brickmold:** remove aesthetic casing or trim
- 2 **Height:** measure from top to bottom corner
- 3 **Width:** measure from corner to corner
- 4 **Jamb Depth:** measure the width of the edge of the door frame
- 5 **Rough Opening:** measure the height and width of framed door space
- 6 **Threshold:** measure width and height of trim on exterior side (for new brickmold)
