Ella Walk-In Tub Operations Instructions

1. Entering the Tub

- The U-Shape inward swing door handle is located on the inside of the tub and is designed for a safer entry with an added deck and wall mounted grab bar
- Once you are in the tub stay standing and close the door and turn. The door can also be closed from a sitting position but it is more difficult
- Do not open the door unless the tub is completely drained!

2. Draining the Tub

- Open the drain by turning handles clockwise, or close by turning counterclockwise
- To avoid spills or leaks, do not fill the tub over the center of the drain handle
- Do not open the door until the tub is completely drained

Ella Walk-In Tub Operations Instructions
