

Clean Control's Germ Control is an EPA-registered Hospital Disinfectant in Line with CDC's Recent Ebola Guidance

On August 1, 2014, the U.S. Centers for Disease Control and Prevention (CDC) released guidance entitled, "Infection Prevention and Control Recommendations for Hospitalized Patients with Known or Suspected Ebola Hemorrhagic Fever in U.S. Hospitals"¹

As part of the care of patients who are persons under investigation, or with probable or confirmed Ebola virus infections, hospitals are recommended to:

- Use a U.S. Environmental Protection Agency (EPA)-registered hospital disinfectant with a label claim for a non-enveloped virus (e.g., norovirus, rotavirus, adenovirus, poliovirus) to disinfect environmental surfaces in rooms of patients with suspected or confirmed Ebola virus infection.

Clean Control Corporation provides the following product that meets the CDC guidance concerning efficacy against the non-enveloped viruses:

OdoBan® Brand - Germ Control
Size: Half Gallon Item #: 913761-H

Product	EPA Reg. No.	USE SITE		
		Hospital/Health Care Facilities	Institutional (e.g. schools, office buildings, etc.)	Residential
Germ Control	10324-105-66243	Yes	Yes	No

Make life fresh.
