

## How to use Scotchgard™ Heavy Duty Water Shield

Get the ultimate protection against the elements.

### 1. Prepare

Protect other nearby surfaces from overspray. If overspray occurs, quickly wipe up.

### 2. Shake

Shake can well. Apply only to clean, dry articles.

### 3. Test

Test for colorfastness. Spray in an inconspicuous area and allow article to dry completely to test for color change. May give fabric a slightly darker, richer tone.

### 4. Spray

Spray with a slow, sweeping motion 6" to 8" away from article. Cover article uniformly, but do not saturate.

### 5. Dry

Allow article to dry completely before using.

### 6. Reapply

Reapply seasonally or as needed, and after cleaning to maintain repellency.

Protect your whole collection of outdoor gear and furniture

#### Outdoor furniture

Save your cushions from downpours.

#### Tents and tarps

Shut out the rain and sleep tight.

#### Grill and boat covers

Make sure your summer fun stays dry.
