First Aid Statements on
back panel before use

WHY YOU SHOULD USE THIS PRODUCT:

When used as directed, this product is a fast acting clarifier that will clear dull, hazy or cloudy water. Regular use of this product reduces the build up of particles in pool water. Cloudy pool water can occur in newly filled pools, during warm weather, with pool start up or with algae growth.

For crystal clear pool water, follow our **HTH® 4 step pool care program**: Step 1: Test and adjust pool water balance, Step 2: Sanitize, Step 3: Shock treat your pool at least once a week, and Step 4: Add algaecide regularly.

DIRECTIONS FOR USE:

For crystal clear water, add this product once a week. Use this product 4 to 12 hours after EACH shock treatment, superchlorination or algaecidal treatment. This will remove dead algae and organic debris from the pool water.

IMPORTANT:

This product is highly concentrated. Mix thoroughly with pool water before adding to pool water.

1. Dilute this product in a bucket of pool water.
2. Pour most of diluted product around the sides of the pool.
3. Add some of the solution to the skimmer.
4. Run the pump filter for 8 hours.
5. Vacuum the pool.

HOW TO USE:

1. Add 2 fl. oz. for each 10,000 gallons of pool water.
2. Repeat treatment if needed.

EXTREMELY CLOUDY WATER:

1. Add 4 fl. Oz for each 10,000 gallons of pool water.
2. Repeat treatment if needed.

STORAGE & DISPOSAL:

Keep product in its tightly closed container when not in use. Store out of reach of children and away from heat or open flame. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

Contains cationic polymer. Do not get in eyes, on skin or on clothing. Avoid breathing fumes. Do not mix with other chemicals.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN CASE OF EMERGENCY CALL:

1-800-654-6911

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
