Tradesparker Custom Canopy

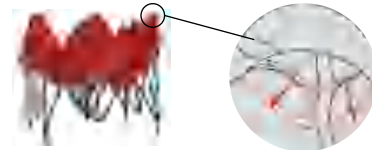

Setup Instructions

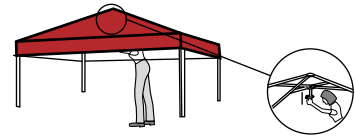

Partially unfold the frame

Drape the fabric cover over the frame

Secure all 4 corners with Velcro (Align stitching 1" below plastic fittings)(see illustration)

Lift upward at the center (frames are tighter/sturdier - may require extra force) (Stitching should now align with plastic fittings)

Push up all 4 corner buttons until they click (firm pressure required)

Attach inner yellow hooks to crossbars and fasten Velcro straps (see illustration)

Press leg buttons and extend all 4 legs outward

Anchor with sandbags stakes and guylines

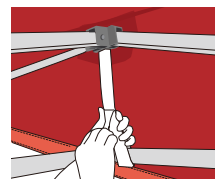

Folding Instructions

Press leg buttons to retract all 4 legs

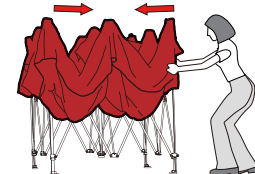

Detach all inner hooks and Velcro straps

Release corner buttons to collapse frame

Push down on crossbars to assist folding

Fold corners inward for compact storage

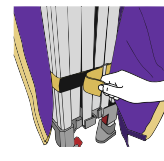

Bundle entire unit and cover with storage bag (fabric remains attached)

Storage bags + rugged wheels = Easy life on the go!

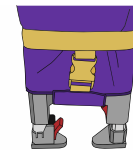

For short-term storage, you can leave the top on the frame. For extended periods, remove it and store separately to prevent fabric wrinkles.

Slide bag over folded canopy

Fasten inner top/bottom Velcro straps

Zip closed and secure bottom buckle (see illustration)

Carry using handles (2-person lift recommended without wheels) (see illustration)

Install wheels by inserting into footplate holes until they click (see illustration)

Transport by dragging using storage bag handles (see illustration)

Slide partially opened canopy for low-height relocation (see illustration)

Heavy-Duty 3 inch Dual-Row Casters

🔥 Thick rubber tread - Puncture-resistant construction

🔥 2 locking + 2 non-locking wheels

⚠️ Critical Safety Warning:

- Always firmly attach all 4 wheels to frame
- NEVER operate when inner legs are elevated - wheels cannot be engaged in this position

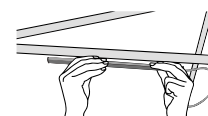

Set up Sparker lightning and light strip

"Pop in the battery as pictured!"

Top battery
bottom battery

Slide the flashlight up into the rack mount until it clicks.

Magnet the 4 LED strips to the center cross tubes

Plug in all Type-C connectors

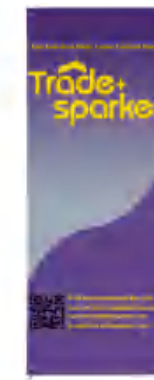

Hit the flashlight switch to light up

Safety Precautions And Care Instructions

- Do not use your canopy as a permanent shelter. It is designed for temporary use only. Damage due to weather conditions are not covered under warranty.
- Do not set up on a steep incline. Always set up on a level ground. Do not leave your canopy unattended. Always use tie-downs, stakes or weight feet to secure your Tradesparker canopy especially in windy conditions.
- Never set up in windy, rainy, or snowy conditions. Do not let snow or rain accumulate on canopy top, this can result in damage or collapsing.
- Do not machine wash your canopy cover. Wash with mild soap and water with a brush while the instant canopy is open without the legs extended. Do not use harsh detergents, abrasives.
- Do not pack your canopy away damp or wet. This promotes mildew or rust. Always store completely dry.
- For best results in keeping your top clean and to avoid small rips and tears, it is recommended that the top be removed from frame and stored in the carry bag after each use.

Warranty

- **Frame:** 6-month-limited manufacturer's defective warranty
- **Fabric and Roller Bag:** 6-month-limited manufacturer's defective warranty
- **We will not cover the return shipping fees.**
