# Planning a Roof?

## Check the List Twice. Check Out Once.

Use this handy worksheet to make sure you have everything you need before you pull out of the parking lot. For each roof system component, choose one quality GAF product.

## Calculation

### How Much to Buy

- Metal Drip Edge: Total Eaves = \( \text{lin. ft.} \), Total Rakes = \( \text{lin. ft.} \)
  
  \[ \text{Rakes + Eaves:} \]

- Coil Nails: Total Squares = \( \div 20 \text{ squares per box} \)
  
  \[ \text{boxes} \]

- Step Flashing: Roof-adjoining sidewalls, in inches = \( \div 5 \)
  
  \[ \text{pieces} \]

- Pipe Collars (Diameters vary): Number and dimension of pipes =
