ABOUT CLOSETMAID®

Since 1965, ClosetMaid® has been the leader in the wire storage solutions for every room in the home. Today we are headquartered in Orlando, FL and are a leader in home storage and organization. We offer innovative wire and laminate/wood storage systems for use in bedrooms, kitchens, family rooms, laundry rooms, home offices and garages -wherever people need to store and organize their things.

Consumers worldwide choose ClosetMaid® wire shelving for many reasons:

- Quickly and easily doubles or triples closet storage space
- Wire and Premium Wood Shelving allow air to circulate; keeping clothing fresh
- Shelving is made from strong, extruded steel wire for maximum strength
- Shelving is coated with a tough durable vinyl and resists rusting, discoloration, fading and chipping
- Products are easy to install

EPOXY VS VINYL COATED SHELVING

Epoxy does not effectively cover the weld residue, resulting in rusting and chipping.

Vinyl covers both wires and welds, keeping shelving rust and chip free.

CONTACT US

All bulk pricing must be obtained through our customer service either by email or phone call.

ABOUT OUR SHELVING

ClosetMaid wire shelving is vinyl-coated for improved durability and performance over other epoxy-coated shelving.

- Shelving is designed to install quickly and easily
- All shelving is made in the USA in Ocala, Florida
- All shelving made with minimum of 91% recycled content - SCS® Certified

Four specially-designed shelving options:

- Low Profile SuperSlide®
- Shelf & Rod
- Close Mesh
- TotalSlide®

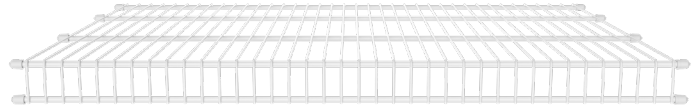

Low Profile SuperSlide® is a dual-purpose shelf. It serves as a storage shelf or becomes a hanging shelf when SuperSlide closet rod and hardware are added to the shelf. The SuperSlide closet rod system allows hangers to slide along the closet rod without interruption.

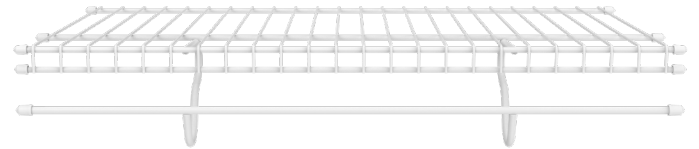

Shelf & Rod shelving is fast, simple closet storage with a built-in hang rod that has stops every 12 inches.

Close Mesh shelving has narrower, 5/8 in. width wire spacing which prevents smaller items from tipping, spilling, or breaking (vs. the standard 1 in. spacing).

TotalSlide® shelving has a built-in hang rod that allows for continuous sliding.

FIXED MOUNT SYSTEM + HARDWARE

There are 2 ways to mount shelving to the wall – Fixed Mount and ShelfTrack® Adjustable Mount. Fixed Mount is an economical but permanent installation system.

- The system includes back clips which anchor the shelf to the back wall and are placed 12 inches apart.
- For installations involving side walls, end brackets are used to support the shelf.
- Support Brackets support the shelf at an angle and are placed every 3 feet.
- Shelf end caps protect the sharp ends of the shelving and provide a more finished installation.

FIXED MOUNT with **SUPERSLIDE®**

SHELFTRACK® ADJUSTABLE SYSTEM + HARDWARE

The second way to mount ClosetMaid® Shelving to the wall is ShelfTrack®. The ShelfTrack® System is adjustable so shelves can be repositioned at any time. The system consists of a horizontal hang track that is first mounted to the back wall.

- The hang track is a key component, in that it saves time by requiring leveling only once during the installation.
- When the hang track is in place, the vertical standards are hung from the track, the brackets are inserted into the notches of the standards and the shelf can be snapped into place.

STYLE+™ PREMIUM MELAMINE CLOSET SYSTEM

Style+™ is a premium line of ClosetMaid's classic tower-based organization system. Stylish, modern features made with professional grade materials. With six finishes and three drawer and door front options, this is our most customizable wood closet program yet. Simply start with a tower, add specialized storage units, and customize with accessories. Towers are available in narrow 17 in. and 25 in. widths, in floor mounted and hanging tower options.

- Scratch and stain resistant melamine finish
- Three drawer and door front options
- Features soft-close drawer glides
- Available in 6 stylish finishes: White, Bleached Walnut, Coastal Teak, Chocolate, Modern Walnut & Noir
