

WHOLE HOUSE BENEFITS

Clean, filtered water
from every tap

Take A Clean Breath

Your Culinary Secret

Love Your Hair and Skin Again

Pure Water Vibrant Colors

Pets Love Healthy Water Too

Increases Shelf Life

WHOLE HEALTH

WHOLE HOUSE PROTECTION

Designed specifically for well water contamination to protect from bacteria, viruses and other contaminants commonly found in private well water.

Includes a carbon media upgrade, larger 20" pre-filter, sub-micron post-filter and our Sterilight Ultraviolet Filter.

WHOLE HEALTH

ULTRA DELICIOUS

Get clean, great-tasting water from every tap in your home by removing 97% of chlorine in regular tap water. Also reduces other harmful contaminants including:

- Heavy metals like lead and mercury
- Organic chemicals like herbicides, pesticides and VOCs
- Industrial solvents and more

WHOLE HEALTH

BETTER WATER BETTER COOKING

Top chefs know that using filtered water produces stronger flavors, quicker cooking times and all-around optimal results in the kitchen.

WHOLE HEALTH

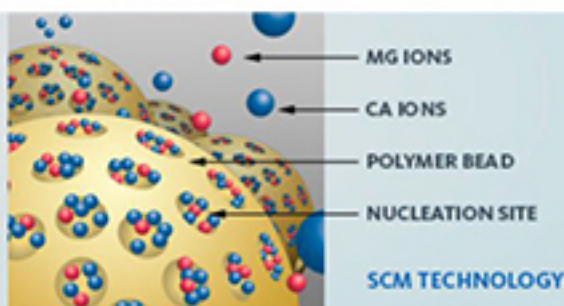

HEALTHIER SKIN AND HAIR

Reduce your body's exposure to harsh chlorine and synthetic chemicals that can cause damage and excessive drying.

Bathe yourself in Aquasana filtered water for noticeably healthier, more moisturized skin and hair.

INNOVATIVE SALT-FREE SOFTENING TECHNOLOGY

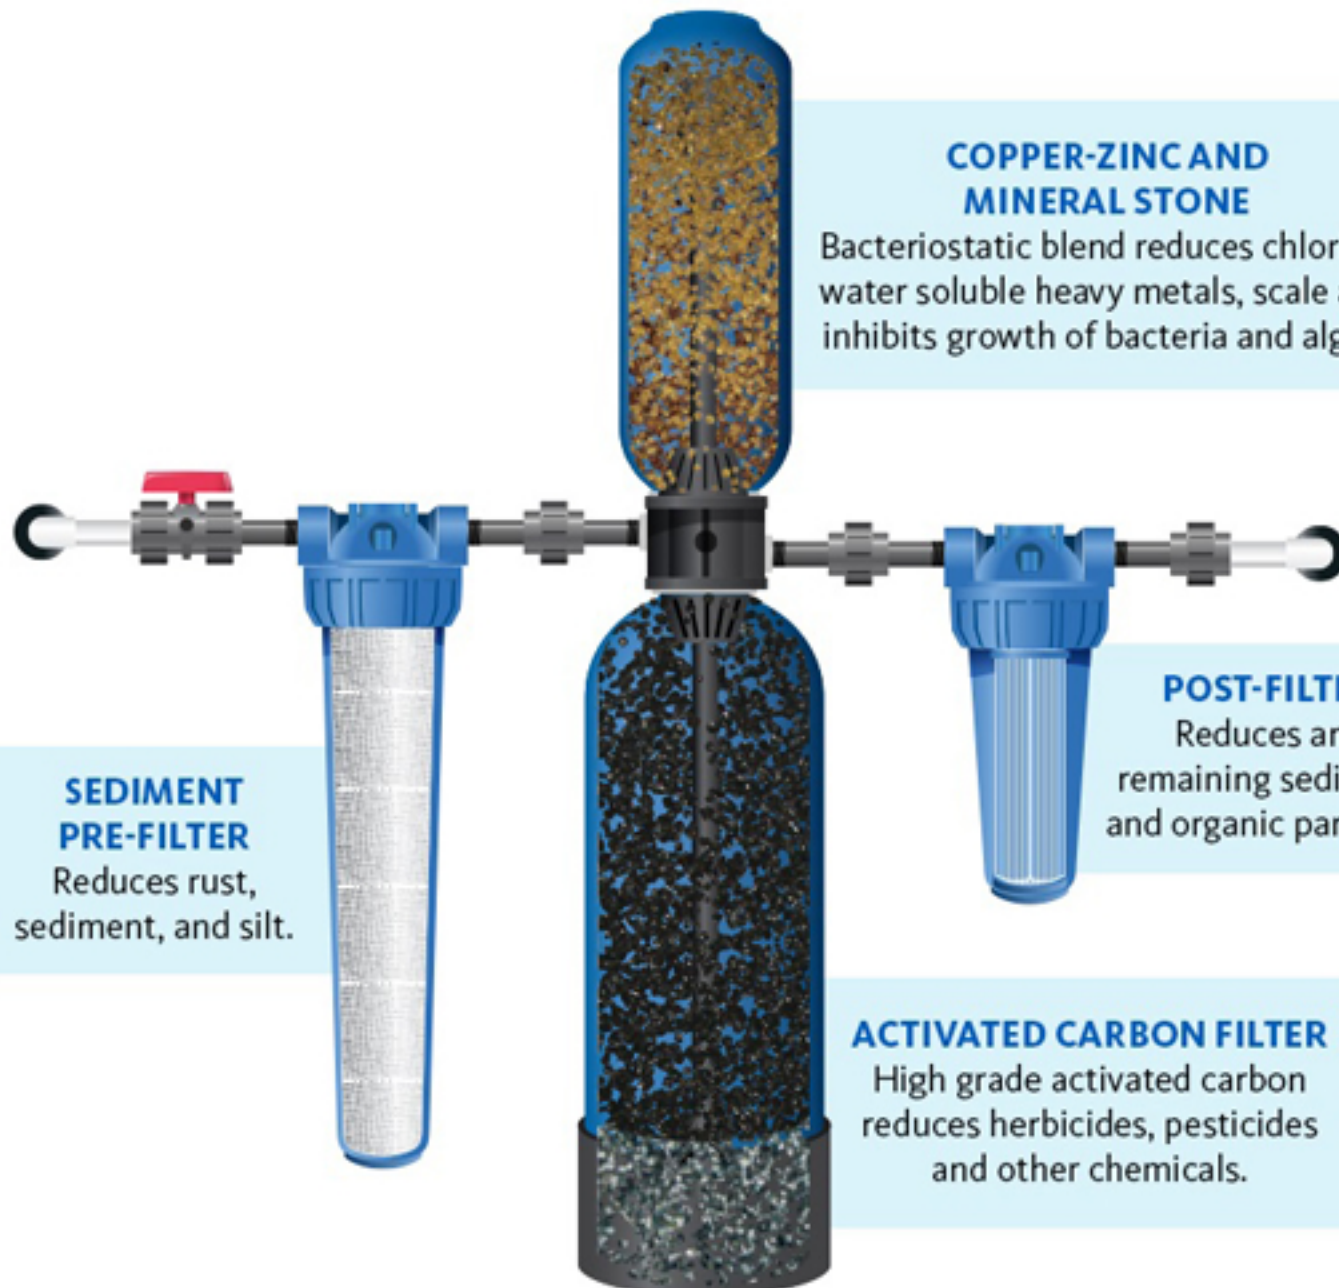

Scale Control Media uses water flow to naturally alter the structure of hard mineral ions into a crystal structure that prevents the minerals from binding and forming scale buildup. SCM salt-free softening is proven to reduce scale on internal pipes and plumbing. Unlike salt based softeners, Aquasana SimplySoft will not demineralize your water, harm your pipes with harsh salt, or put excessive amounts of sodium waste into our communal water supply.

POWERFUL UV FILTRATION KILLS
99.99%
OF VIRUSES, BACTERIA LIKE E. COLI,
AND CHLORINE RESISTANT CYSTS LIKE
CRYPTOSPORIDIUM AND GIARDIA.

PURE PERFORMANCE OPTIONAL UV STERILIGHT FILTRATION

Worried about boil warnings because bacteria and chlorine resistant cysts are making your water non-potable? Get total home protection to safeguard against bacteria and viruses that may be present in your water.

COPPER-ZINC AND MINERAL STONE

Bacteriostatic blend reduces chlorine, water soluble heavy metals, scale and inhibits growth of bacteria and algae.

SEDIMENT PRE-FILTER

Reduces rust, sediment, and silt.

POST-FILTER

Reduces any remaining sediment and organic particles.

ACTIVATED CARBON FILTER

High grade activated carbon reduces herbicides, pesticides and other chemicals.
