Protect Your Gear, Secure Your Journey

Our crossbar pads on car roof fit most vehicles with crossbars and supports up to 88 lbs, offering easy installation with tie-down straps. Made from durable 600D PVC and EPE cotton filler, it provides excellent protection for your various outdoor gear like kayak, SUP, surfboards.

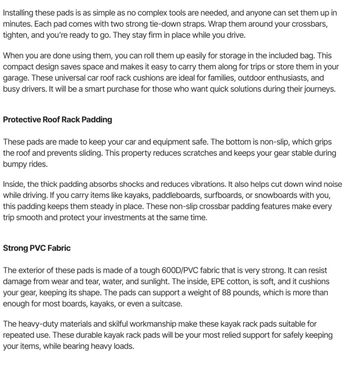

Our inflatable soft roof rack pads are designed to fit a wide range of vehicle types - sedans, SUVs, MPVs, etc. They add more practicality to your car, making it easy to carry luggage, sporting equipment, or other cargo, enhancing the convenience of your travel and daily outings.

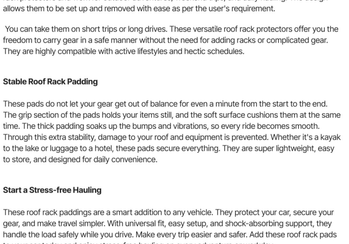

Simply attach the hook-and-loop strap around your car's crossbars and secure your gear with the tie down straps in minutes, making your travel prep faster and easier.

Made from tough 600D PVC fabric on the outside and EPE cotton filler inside, this roof rack crossbar pad set is soft, durable, wear-resistant, and waterproof, offering long-lasting protection for your gear.

Create extra storage space on your roof and securely transport kayaks, surfboards, long boards, paddle boards, skis, canoes, and other outdoor gear with tie-down straps, ideal for all your adventures.

VEVOR Roof Rack Padding – Luggage Carrier with 88lb Capacity

Carrying gear on your roof doesn't have to be hard or risky. The VEVOR roof rack padding makes your trips easier and safer. These pads give you a soft surface that protects your car and your equipment. They fit most vehicles, are easy to install, and are strong enough to handle heavy loads. Whether you're heading out for a weekend adventure or hauling work equipment, these pads make travel smooth, secure, and stress-free.

Compatible with Most Vehicles

These pads are made to work with most cars on the road. They fit OME, Aero, and Flat crossbars and are 28 inches long. They work well on 2-door, 3-door, 4-door, and 5-door sedans and SUVs. This universal fit makes them a versatile choice for every other car owner.

The soft padding gives your gear a safe resting place and protects your roof from scratches. The design is also comfy and supportive when loading bulky items. These soft roof rack pads make every trip easier and give you confidence that your equipment will stay in place. No matter you are driving around town or on a long highway journey.

Tie Down Straps for Installation

Installing these pads is as simple as no complex tools are needed, and anyone can set them up in minutes. Each pad comes with two strong tie-down straps. Wrap them around your crossbars, tighten, and you're ready to go. They stay firm in place while you drive.

When you are done using them, you can roll them up easily for storage in the included bag. This compact design saves space and makes it easy to carry them along for trips or store them in your garage. These universal car roof rack cushions are ideal for families, outdoor enthusiasts, and busy drivers. It will be a smart purchase for those who want quick solutions during their journeys.

Protective Roof Rack Padding

These pads are made to keep your car and equipment safe. The bottom is non-slip, which grips the roof and prevents sliding. This property reduces scratches and keeps your gear stable during bumpy rides.

Inside, the thick padding absorbs shocks and reduces vibrations. It also helps cut down wind noise while driving. If you carry items like kayaks, paddleboards, surfboards, or snowboards with you, this padding keeps them steady in place. These non-slip crossbar padding features make every trip smooth and protect your investments at the same time.

Strong PVC Fabric

The exterior of these pads is made of a tough 600D/PVC fabric that is very strong. It can resist damage from wear and tear, water, and sunlight. The inside, EPE cotton, is soft, and it cushions your gear, keeping its shape. The pads can support a weight of 88 pounds, which is more than enough for most boards, kayaks, or even a suitcase.

The heavy-duty materials and skilful workmanship make these kayak rack pads suitable for repeated use. These durable kayak rack pads will be your most relied support for safely keeping your items, while bearing heavy loads.

Versatile for Work and Play Gears

These pads are not limited to sports activities only. They will be a big help in turning your roof into a storage area for different items. Some of the things you can transport are surfboards, snowboards, kayaks, paddleboards, luggage, and even work tools. They are multi-purpose roof rack protectors and work for outdoor adventures, weekend trips, and daily hauling. The design allows them to be set up and removed with ease as per the user's requirement.

You can take them on short trips or long drives. These versatile roof rack protectors offer you the freedom to carry gear in a safe manner without the need for adding racks or complicated gear. They are highly compatible with active lifestyles and hectic schedules.

Stable Roof Rack Padding

These pads do not let your gear get out of balance for even a minute from the start to the end. The grip section of the pads holds your items still, and the soft surface cushions them at the same time. The thick padding soaks up the bumps and vibrations, so every ride becomes smooth. Through this extra stability, damage to your roof and equipment is prevented. Whether it's a kayak to the lake or luggage to a hotel, these pads secure everything. They are super lightweight, easy to store, and designed for daily convenience.

Start a Stress-free Hauling

These roof rack paddings are a smart addition to any vehicle. They protect your car, secure your gear, and make travel simpler. With universal fit, easy setup, and shock-absorbing support, they handle the load safely while you drive. Make every trip easier and safer. Add these roof rack pads to your car today and enjoy stress-free hauling on every adventure or workday.
