

SIMPLE

- 1** Choose in-ground or hard surface post
(4-sided design works for end, mid, and corner post)

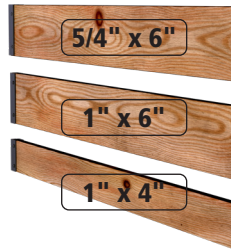

- 2** Install brackets and spacers

- 3** Attach boards

VERSATILE

- Mix and match wood board sizes in the same section
- Use multiple spacers to adjust privacy and airflow
- One post for all applications (corner/mid/end)
- Post can be cut to any height
- Posts won't warp, twist or crack
- Designed for wind speeds up to 105 mph
