

Limited Warranty

J&H LED agrees to maintain a limited warranty on all fixtures for a period of 5 years. The JH-SPLxxxW-27R series is the exception and they come with a 3 year warranty. This is a Limited Warranty that includes full replacement of fixtures or partial replacement of parts on any defect of any LED fixture. There are no refunds included in the warranty and all warranties are approved at the sole discretion of J&H LED. This Limited Warranty can be voided at anytime for any reason by J&H LED if misuse of the fixture is suspected. Misuse is defined as using the fixtures outside of the parameters of the official Specification Sheets. The warranty does not include cosmetic damages as the result of outside forces, damaging use, or acts of God. All non-LED fixtures will have the same coverage but exclude any standard light bulbs that were included in the price of the fixture at no extra charge. All fixtures will stay in good working order and maintain their brightness for the entire warranty period.
