

# Multi- Purpose Rod Stand

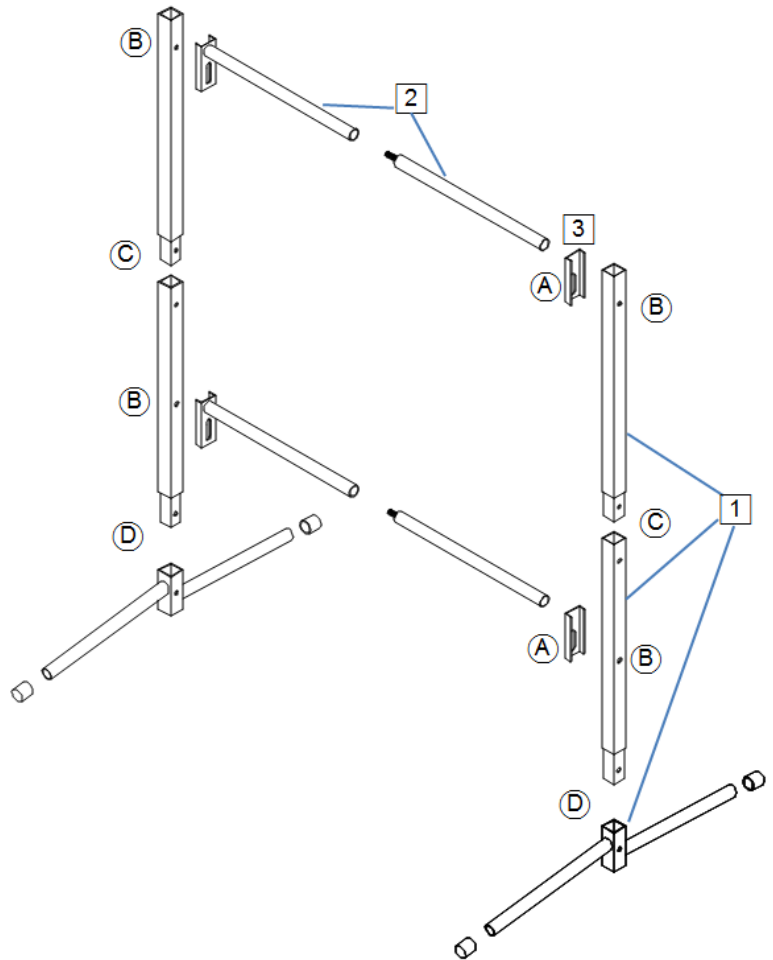

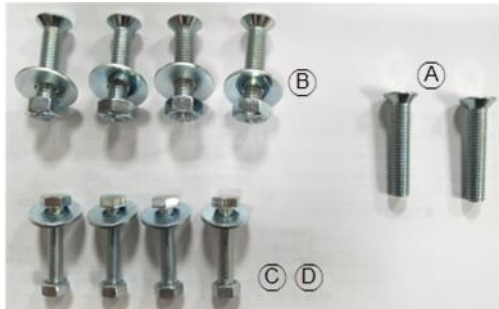

## Common Uses:

- Cubicle Space Divider
- Studio Background Stand
- Banner Holder
- Projection Screen Frame

## Part List:

1	2 Stands, (3 parts each)
2	2 Cross Bars, ( 2 parts each)
3	2 Stand Connectors

## Bolts & Washers & Nuts

## Assembly Instructions

- (1) Unpack the carton, verify you have all of the parts
- (2) Slide the stands together and bolt the junction with hex nuts, bolts, and washers
- (3) Connect the stands to the feet and bolt them together using hex nuts, bolts, and washers
- (4) Screw the 2 cross bars together, and fasten the stand connectors to their ends.
- (5) Optional: Insert curtain /screen onto the cross-bar.
- (6) Use the machine screws and bolts to fasten the completed crossbar- connector to the stand at the 4 junction points , right and left, top and bottom

*This Multi- Purpose Rod Stand is also suitable for the construction of cubical partitions. The varied feet height on the stands allows for a tight junction at the corners.*

**NOTE: CURTAIN / SCREEN NOT INCLUDED.**
