## 96-110 10 inch Wet Tile/Stone Saw

**Voltage:** 120v  
**Speed (RPM):** 4,200  
**Amps:** 15A  
**Weight:** 99 lbs.  
**Diamond Wheel Size:** 10 in.  
**Arbor Size:** 5/8 in.

**Maximum Cut Capacities:**  
**Depth Cut 90°:** 3-3/8 in.  
**Depth Cut 45°:** 1-7/8 in.  
**Tilting Range:** 0°, 22.5°, 45°  
**Rip Cut:** 34 in.  
**Diagonal Cut:** 24 in.

## Features

- Powerful 15 amp motor will cut through natural and man-made tile and pavers
- 10 inch diamond cutting wheel handles stone up to 3-3/8"
- Largest rip/diagonal cutting capacity in its class
- Accurate to within 1/32" across a 24" tile
- Heavy-duty fence with positive stops at 0°, 22.5° and 45°
- Durable 12 bearing rail system for accurate cuts and smooth operations
- Removable extension table for use with larger format tiles
- Saw frame constructed of durable steel pipe
- Flexible water nozzles allow precise water control
- Front access to water tray greatly simplifies cleaning and draining processes
- Water supply lines are externally mounted and easily accessible for cleaning or replacement
- Blade guard easily opens and secures with finger knob
- Blade splash guard and back splash tray keeps work area dry and returns water to water tray
- Water pump designed for use in water tray or side bucket
- Divider in water tray filters slurry and extends pump life

UPC:847962006615

# CRUZER™

## DELTA® 96-270 Scissor Stand

UPC: 847962006349

for 96-110

### Features

- Adjustable height for comfortable use by different size users
- Powder coated paint for added durability
- Steel pipe construction for strength and durability
- Designed to work with the 96-110 10 inch tile saw

## DELTA® 96-267 Scissor Stand

UPC: 847962006356

for 96-107

### Features

- Adjustable height for comfortable use by different size users
- Powder coated paint for added durability
- Steel pipe construction for strength and durability
- Designed to work with the 96-107 7 inch tile saw

## DELTA® 96-014 Folding Stand

UPC: 847962006370

### Features

- Specifically designed to fit the 7 inch and 10 inch DELTA® Cruiser tile saws
- One-step setup and fold using the foot actuated pedal
- Designed for quick setup and easy transport
- Lightweight steel tube construction provides a stable work surface

Works with 96-110 10 inch or 96-107 7 inch DELTA® tile saws. Securely bolts to saw base for easy one-man transport across the job site and into the vehicle. Simply put the handles on the tailgate or rear of vehicle and lift the other end to load. 8 inch wheels roll down stairs and over obstacles with ease.
