SAFETY DATA SHEET

Date of issue/Date of revision 18 August 2015 Version 3

| Section 1. Identification | | |
|----------------------------------|---------------------------------------------------------------------------------|--|
| Product name | : CWF-UV NATURAL 275 VOC FLD542 | |
| Product code | : 00409163 | |
| Other means of identification | : Not available. | |
| Product type | : Liquid. | |
| Relevant identified uses of | the substance or mixture and uses advised against | |
| Product use | : Industrial applications, Used by spraying. | |
| Use of the substance/ mixture | : Coating. | |
| Uses advised against | : Not applicable. | |
| Supplier | : PPG Industries, Inc. One PPG Place Pittsburgh, PA 15272 | |
| Emergency telephone number | : (412) 434-4515 (U.S.) (514) 645-1320 (Canada) 01-800-00-21-400 (Mexico) | |
| Technical Phone Number | : 1-800-441-9695 (8:00 am to 5:00 pm EST) | |

| Section 2. Hazards identification | | |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------|--|
| OSHA/HCS status | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). | |
| Classification of the substance or mixture | SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) (central nervous system (CNS)) - Category 1 | |
| | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 22.2% | |
| GHS label elements | | |
| Hazard pictograms | | |
| Signal word | : Danger | |
| Hazard statements | : Causes damage to organs through prolonged or repeated exposure. (central nervous system (CNS)) | |
| Precautionary statement | <u>S</u> | |

United States

Page: 1/12

Product name CWF-UV NATURAL 275 VOC FLD542

Section 2. Hazards identification

| Prevention | Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Response | : 🔀 et medical attention if you feel unwell. |
| Storage | : Not applicable. |
| Disposal | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements | : Sanding and grinding dusts may be harmful if inhaled. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated. DANGER - RAGS, STEEL WOOL OR WASTE SOAKED WITH THIS PRODUCT MAY SPONTANEOUSLY CATCH FIRE IF IMPROPERLY DISCARDED. IMMEDIATELY AFTER EACH USE, PLACE RAGS, STEEL WOOL OR WASTE IN A SEALED WATER-FILLED METAL CONTAINER. |
| Hazards not otherwise classified | : Prolonged or repeated contact may dry skin and cause irritation. |

Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture |
|-------------------|---------------------------------|
| Product name | : CWF-UV NATURAL 275 VOC FLD542 |

| Ingredient name | % | CAS number |
|--------------------------------------------|-----------|------------|
| Solvent naphtha (petroleum), medium aliph. | ≥5 - <10 | 64742-88-7 |
| ethanediol | ≥1 - <3 | 107-21-1 |
| Nonylphenol, branched, ethoxylated | ≥1 - <3 | 68412-54-4 |
| 3-iodo-2-propynyl butylcarbamate | ≥0.3 - <1 | 55406-53-6 |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

| Description of | ⁱ necessary | <u>r first aid</u> | measures |
|-----------------------|------------------------|--------------------|----------|
| | | | |

| Eye contact | Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |

Date of issue 18 August 2015 Version 3

Product name CWF-UV NATURAL 275 VOC FLD542

Section 4. First aid measures

| Skin contact | 1 | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water |
|--------------|---|--------------------------------------------------------------------------------------|
| | | or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | : | If swallowed, seek medical advice immediately and show this container or label. Keep |
| | | person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

| most important symptoms/ | sheets, dedte and delayed |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Potential acute health effe | <u>cts</u> |
| Eye contact | : No known significant effects or critical hazards. |
| Inhalation | : No known significant effects or critical hazards. |
| Skin contact | : Defatting to the skin. May cause skin dryness and irritation. |
| Ingestion | : No known significant effects or critical hazards. |
| Over-exposure signs/sym | <u>otoms</u> |
| Eye contact | : No specific data. |
| Inhalation | : No specific data. |
| Skin contact | : Adverse symptoms may include the following: irritation dryness cracking |
| Ingestion | : No specific data. |
| Indication of immediate me | dical attention and special treatment needed, if necessary |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |
| | |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : None known. |
| Specific hazards arising from the chemical | : In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide |

Product name CWF-UV NATURAL 275 VOC FLD542

Section 5. Fire-fighting measures

| Special protective actions | 1 | Promptly isolate the scene by removing all persons from the vicinity of the incident if |
|------------------------------------------------|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| for fire-fighters | | there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protect | tiv | e equipment and emergency procedures |
|--------------------------------|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods and materials for co | onta | ainment and cleaning up |
| Small spill | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| Large spill | : | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations |

Section 7. Handling and storage

| Precautions for safe handling | 9 |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Protective measures | : Fut on appropriate personal protective equipment (see Section 8). Do not breathe vapor or mist. Do not ingest. Avoid contact with eyes, skin and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |

(see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Product name CWF-UV NATURAL 275 VOC FLD542

Section 7. Handling and storage

| Special precautions | : Materials such as cleaning rags, paper wipes and protective clothing, which are contaminated with the product may spontaneously self-ignite some hours later. To avoid the risks of fires, all contaminated materials should be stored in purpose-built containers or in metal containers with tight-fitting, self-closing lids. Contaminated materials should be removed from the workplace at the end of each working day and be stored outside. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts. |
|--------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : Do not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
|--------------------------------------------|----------------------------------------|
| Solvent naphtha (petroleum), medium aliph. | ACGIH TLV (United States). |
| | TWA: 400 ppm |
| | OSHA PEL (United States, 2/2013). |
| | TWA: 100 ppm 8 hours. |
| | TWA: 400 mg/m ³ 8 hours. |
| ethanediol | ACGIH TLV (United States, 4/2014). |
| | C: 100 mg/m ³ Form: Aerosol |
| Nonylphenol, branched, ethoxylated | None. |
| 3-iodo-2-propynyl butylcarbamate | None. |

| | Key to abbreviations | | |
|--------------------|--------------------------------------------------------------------------------|------|------------------------------------------------------|
| А | = Acceptable Maximum Peak | S | Potential skin absorption |
| ACGIH | American Conference of Governmental Industrial Hygienists. | SR | Respiratory sensitization |
| С | = Ceiling Limit | SS | = Skin sensitization |
| F | = Fume | STEL | Short term Exposure limit values |
| IPEL | Internal Permissible Exposure Limit | TD | = Total dust |
| OSHA | Occupational Safety and Health Administration. | TLV | = Threshold Limit Value |
| R | = Respirable | TWA | = Time Weighted Average |
| Z | = OSHA 29CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances | | 0 0 |
| O a a a a b | | | |

Consult local authorities for acceptable exposure limits.

Product name CWF-UV NATURAL 275 VOC FLD542

Section 8. Exposure controls/personal protection

| Recommended monitoring procedures | If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appropriate engineering controls | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |
| Individual protection measur | |
| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection <u>Skin protection</u> | Safety glasses with side shields. |
| Hand protection | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves | For prolonged or repeated handling, use the following type of gloves: |
| | Recommended: nitrile rubber |
| Body protection | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

Product name CWF-UV NATURAL 275 VOC FLD542

Section 9. Physical and chemical properties

Appearance

| Physical state | : | Liquid. |
|---------------------------|---|--------------------------------------------------------------------|
| Color | : | Various |
| Odor | : | Alcohol-like. |
| Odor threshold | : | Not available. |
| рН | 1 | 9 |
| Melting point | 1 | Not available. |
| Boiling point | 1 | 100°C (212°F) |
| Flash point | 1 | Closed cup: Not applicable. [Product does not sustain combustion.] |
| Auto-ignition temperature | 1 | Not available. |
| Decomposition temperature | : | Not available. |
| Flammability (solid, gas) | 1 | Not available. |
| Lower and upper explosive | 1 | Lower: 0.12% |
| (flammable) limits | | Upper: 0.14% |
| Evaporation rate | 1 | 0.05 (butyl acetate = 1) |
| Vapor pressure | 1 | 3.3 kPa (25 mm Hg) [room temperature] |
| Vapor density | 1 | Not available. |
| Relative density | 1 | 1 |
| Density(lbs / gal) | 1 | 8.35 |
| Solubility | 1 | Partially soluble in the following materials: cold water. |
| Partition coefficient: n- | : | Not available. |
| octanol/water | | |
| Viscosity | 1 | Kinematic (40°C (104°F)): >0.21 cm²/s (>21 cSt) |
| Volatility | 1 | 75% (v/v), 73.673% (w/w) |
| % Solid. (w/w) | : | 26.327 |

Section 10. Stability and reactivity

| | United States Page: 7/12 |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Hazardous decomposition products | : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen. |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Chemical stability | : The product is stable. |
| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |

Product name CWF-UV NATURAL 275 VOC FLD542

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
