

NEW

Less compound.
Less sanding.
Less visible.

Perfect Finish™

FibraTape®

Ultra-Thin Drywall Tape

For Seamless Drywall Finishing and Wall Repair

- **Thinner profile** – Over 30% thinner than standard paper drywall tape and regular fiberglass mesh tape – without compromising strength.
- **Fiberglass mesh** – Creates a high strength, seamless surface that's easy to conceal and resists mold and mildew.
- **Self-adhesive tape** – Saves time by eliminating the need for a pre-bedding coat.
- **Ideal for butt-end joints** – A thinner profile requires less compound for easier feathering and sanding.
- **No blisters and bubbles** – An open mesh design means a smooth finish every time.
- **Increased strength** – 50% more intersection points and an increased number of fabric yarns for unparalleled durability. In fact, strength-to-first-crack testing proves that Perfect Finish is stronger than standard fiberglass mesh.

This innovative, new ultra-thin drywall tape offers a Perfect Finish™ every time.
