

LAURASTAR

THE MANY ADVANTAGES OF THE LAURASTAR DESIGN

ERGONOMIC DESIGN

ALLOWS FOR RELAXING IRONING FOR LONG PERIODS OF TIME. THE LIGHTWEIGHT, ERGONOMIC DESIGN MAKES IRONING EASIER AND LESS PAINFUL, ESPECIALLY FOR CUSTOMERS WITH ARTHRITIS.

PRESSURE DISTRIBUTION

LAURASTAR IRONS ARE DESIGNED TO HAVE A CENTRAL/EVEN DISTRIBUTION OF PRESSURE ONTO THE FABRIC. PRESSURE ON TRADITIONAL IRONS IS UNEVENLY DISTRIBUTED, RESULTING IN MORE STRENGTH NEEDED TO PRESS THE IRON DOWN.

SYMMETRIC DESIGN ALLOWS FOR BOTH LEFT AND RIGHT-HAND USE. MOST IRONS ARE DESIGNED FOR RIGHT-HAND USAGE, LAURASTAR IRONS CAN BE USED WITH EITHER HANDS FROM WITHER SIDE OF THE IRONING BOARD.

3D SOLEPLATE ALLOWS FOR EVEN AND POWERFUL DISTRIBUTION OF STEAM. TRADITIONAL IRONS RELEASE STEAM THROUGH SEVERAL HOLES THROUGHOUT THE SOLEPLATE. LAURASTAR IRONS ONLY RELEASE STEAM AT THE FRONT OF THE IRON WHERE IT IS MOST BENEFICIAL.
