## Adhesive Loop

### How do you attach a Fresh Air Screen?

With an easy to apply hook and loop system!

*Installation is a breeze!* The adhesive loop is pressure sensitive to make application to frames quick and easy. See instructions for a step-by-step guide.

Need to replace your adhesive loop or want to change the color? No problem! Adhesive loop is now sold separately.

Installation is easier than ever.

Access our online Support Center from your preferred device. Simply scan the QR below to access installation instructions, care tips, warranty information and more!

## Rope and Pull Kits

Retractable screens are great to handle, because they simply **roll up**.

You can roll them up and secure them with buckles and straps, or you can create your own pulley system using **Rope and Pull Kits**.

With no tracks to install, installation is simple and the kits do not interfere with garage mechanisms or screen buckles. Everything you need is included in the kit, along with easy to follow instructions.

**GREAT DESIGNS YOU CAN ROLL WITH**
